PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Performed rack and stack of servers, switches, and storage equipment within enterprise data centre environments, ensuring adherence to physical layout standards.
- Executed hardware installations, replacements, and decommissioning of components, including hot-swappable parts, to maintain data centre operational readiness.
- Managed copper and fibre optic cabling installations, replacements, and troubleshooting, including patch panel management and network connectivity verification.
- Acted as on-site representative for remote IT teams, performing physical inspections, LED checks, and basic diagnostics on server and network infrastructure.
- Updated incident tickets and provided timely status reports on hardware maintenance, installation progress, and observed equipment alarms to remote support staff.
- Coordinated with third-party vendors, facilities management, and security personnel for scheduled equipment installations and site access.
- Maintained and updated asset inventory records, rack layouts, and cable labelling to ensure accurate data centre documentation.

SKILLS

Data Centre Operations – Rack and Stack, Hardware Installation, Component Replacement, Cabling, Patch Panels, Media Handling, Asset Inventory, Documentation

IT Support – On-site Support, Remote Assistance, Troubleshooting, Diagnostics, Ticketing Systems, Status Reporting, Vendor Coordination

Networking – Copper Cabling, Fibre Optic Cabling, Network Connectivity, Switches, Routers

Hardware – Servers, Storage, Network Equipment, Hot-swappable Components

Operating Systems – Linux, Windows (Basic)

Tools – Remote Management Tools, Ticketing Software

PROJECTS

Data Centre Hardware Deployment and Maintenance

- Executed the physical installation and configuration of **50+ new servers** and associated network switches in a high-density data centre rack environment.
- Performed systematic cable management and labelling for all new deployments, reducing troubleshooting time for connectivity issues by an estimated **15%**.
- Managed the decommissioning and secure media handling of **20+ end-of-life servers**, ensuring proper asset tracking and disposal procedures were followed.

On-Site Support for Network Infrastructure Upgrade

- Assisted remote network engineers by performing physical **fibre optic and copper cable replacements** across multiple network racks to support a core network upgrade.
- Conducted post-installation connectivity tests and physical inspections, reporting port status and alignment to remote teams using a structured ticketing system.
- Coordinated with site security and facilities for access and power management during off-peak hours to facilitate the upgrade activities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
