PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided **first- and second-level support** for desktops, laptops, printers, and mobile devices for a large enterprise client, resolving approximately **45 tickets per week**.
- Installed, upgraded, and maintained **Windows 10/11, macOS, and Linux (Ubuntu) operating systems** and standard software applications, ensuring compliance with security protocols.
- Troubleshot diverse hardware, software, and peripheral issues, including **monitors, keyboards, docking stations, and network connectivity**, for end-users across multiple departments.
- Set up and configured new employee workstations, including creating **user accounts and managing permissions** within an Active Directory environment.
- Supported remote users by troubleshooting **VPN, remote desktop, and general connectivity** issues, maintaining efficient access to company resources.
- Collaborated with other IT teams to escalate and resolve complex issues, contributing to the successful completion of **cross-team projects** and system upgrades.
- Managed and maintained an accurate **IT asset inventory**, documenting equipment lifecycle and ensuring data integrity for hardware and software assets.

SKILLS

Operating Systems – Windows 10/11, macOS, Linux (Ubuntu)

Support Tools – JIRA, ServiceNow, Zendesk, Remote Desktop, VPN

Hardware & Peripherals – Desktops, Laptops, Printers, Monitors, Keyboards, Docking Stations

Software & Applications – Office 365, Antivirus, Patch Management

Networking – TCP/IP, DNS, DHCP

Directory Services – Active Directory, Group Policy

Cloud & Mobile – AWS EC2, S3, Lambda, CloudWatch, Mobile Device Support

PROJECTS

Enterprise Desktop Deployment and Support Automation

- Automated the creation of new employee user accounts and permissions in **Active Directory** using Python scripting, reducing setup time by **30%** per new hire.
- Developed a comprehensive documentation suite for common troubleshooting scenarios, which became the primary reference for the L1 support team, improving first-call resolution rates by **15%**.
- Managed the deployment and configuration of **Windows 10/11 and Office 365** for over 50 new employees during a major company expansion phase.

Linux Fleet Management and Observability

- Established baseline configurations and deployed standardized software packages across a fleet of **50+ Linux servers** using shell scripting and **Ansible**.
- Integrated **Splunk** for centralized log aggregation and analysis, enabling faster root cause identification for system incidents and reducing average issue resolution time by **20%**.
- Implemented basic monitoring and alerting using **CloudWatch** for critical server metrics, ensuring proactive identification of potential performance bottlenecks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
