HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed day-to-day operations for a suite of enterprise software systems, ensuring high availability and data integrity within a pharmaceutical manufacturing environment.
- Led the resolution of system and data issues, addressing customer incidents and managing change requests through structured ticketing and triage processes.
- Collaborated with cross-functional teams including scientists and engineers to gather requirements and implement system improvements for production and business areas.
- Developed and maintained comprehensive system documentation, including design specifications, security protocols, testing procedures, and operational runbooks.
- Monitored system performance across **Java** and **Python** applications, implementing proactive measures to prevent downtime and data discrepancies.
- Supported troubleshooting and root cause analysis for software-related issues within manufacturing environments, contributing to system reliability.
- Ensured adherence to company quality standards and practices for system validation documentation and compliance tasks, including audit trail reviews.

SKILLS

Languages – Python, Java, SQL, R

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Jenkins, Git, Jira, Confluence

Data & Analytics – Power BI, Tableau, pandas, NumPy, scikit-learn, DAX, Power Query

Frameworks & APIs – Spring Boot, REST APIs, Flask, FastAPI

PROJECTS

Manufacturing Execution System (MES) Data Validation Framework

- Developed a **Python**-based framework to automate the validation of data pipelines feeding into manufacturing execution systems, ensuring data integrity for regulatory compliance.
- Integrated **SQL** queries against PostgreSQL databases to extract and transform large datasets for anomaly detection and quality checks, processing approximately 5,000 records daily.
- Created detailed documentation and test scripts for the validation framework, ensuring adherence to pharmaceutical industry quality standards and audit trail requirements.

Production Systems Monitoring and Alerting Dashboard

- Engineered a **Java Spring Boot** application to aggregate logs and performance metrics from diverse production systems, feeding into an operational dashboard.
- Implemented REST APIs for real-time data ingestion and retrieval, supporting a team of 8 operations analysts in monitoring system health.
- Configured **Splunk** and **CloudWatch** alerts for critical events, reducing the average time to detect system issues by 30%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
