PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Python** data pipelines for ETL processes, transforming raw data for downstream analytics and reporting, handling approximately **10,000 records** per batch.
- Designed and implemented **Java Spring Boot** REST APIs to support cross-system integrations, ensuring robust data exchange between enterprise applications.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, resolving P1/P2 incidents and maintaining service level agreements for critical business functions.
- Collaborated with stakeholders across Finance, Commercial, and Operations teams to gather reporting and analytics requirements, translating them into clear data specifications for the data platform.
- Analyzed source data to identify inconsistencies and data quality issues, supporting root-cause analysis and recommending improvements to business processes and system configurations.
- Developed and enhanced **Power BI** reports and dashboards, creating complex **DAX** measures and applying data modeling techniques to deliver actionable insights to business users.
- Containerised applications using **Docker** and managed deployments within an **AWS** environment, supporting CI/CD workflows with **Jenkins** pipelines.

SKILLS

Data Engineering – Microsoft Fabric, Lakehouse, Warehouse, Pipelines, Data Lake, ETL, ELT

BI & Reporting – Power BI, DAX, Power Query, Semantic Models, Report Development, Workspace Administration

Programming & Scripting – Python, PySpark, SQL

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

DevOps & Version Control – Git, Jenkins, Docker

Databases – PostgreSQL, MySQL, Oracle

Methodologies & Practices – Agile, Scrum, Data Quality Management, Data Governance, Business Intelligence

PROJECTS

Enterprise Data Pipeline Optimization

- Engineered **Python** scripts to automate the extraction, transformation, and loading of data from disparate enterprise systems, including ERP modules and operational platforms.
- Implemented strategic indexing and query refactoring for relational databases (**PostgreSQL**, **Oracle**), reducing average data retrieval times for reporting by **30%**.
- Developed operational runbooks for data pipeline monitoring and troubleshooting, improving incident response time for data flow interruptions.

Financial Operations Dashboard Enhancement

- Developed interactive **Power BI** dashboards to visualize transaction flows and monitor operational alerts for a financial services client, supporting approximately **5,000 daily transactions**.
- Created complex **DAX** measures and refined data models within Power BI to provide clear insights into payment processing performance and identify bottlenecks.
- Collaborated with business analysts to gather requirements and integrate user feedback, ensuring the dashboard met critical operational and regulatory reporting needs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
