HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Progress 4GL** applications throughout the full development lifecycle, including analysis, design, unit testing, and code reviews for a global logistics platform.
- Provided production support for existing **Progress OpenEdge** applications, resolving incidents and ensuring adherence to agreed Service Level Agreements (SLAs) for critical business systems.
- Engineered **Python scripts** to automate ETL processes for data migration and scheduled reporting, enhancing data processing efficiency by approximately **30%**.
- Designed and implemented **REST APIs** using **Java Spring Boot** to facilitate integration between disparate enterprise systems, supporting seamless data exchange.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) across interconnected enterprise business systems.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing setup time for new environments.
- Investigated and resolved complex technical issues within **Progress database** environments, identifying root causes and implementing corrective actions to ensure data integrity and system performance.

SKILLS

Core Development – Progress 4GL, Progress OpenEdge, Java, Spring Boot, Python, REST API, Microservices, OOP, Design Patterns.

Databases – Progress Database, PostgreSQL, MySQL, Oracle, SQL, Relational Databases, Database Indexing, Data Modeling.

Operating Systems – Unix, Linux, Shell Scripting, Cron Jobs.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD, Code Reviews.

Messaging & Data Formats – XML, JSON, EDI.

Tools & Methodologies – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace, Problem Solving, Critical Thinking.

PROJECTS

Global Shipping Manifest System Enhancement (HCL Technologies)

- Developed new modules in **Progress 4GL** for a global shipping manifest system, enabling real-time tracking of cargo and improving data accuracy.
- Integrated the manifest system with **Progress database** tables and optimized indexing for faster query performance, reducing report generation times by **20%**.
- Collaborated with business analysts to gather requirements for system enhancements and participated in UAT cycles to ensure successful deployment.

Automated Data Reconciliation Service (HCL Technologies)

- Built a **Python** service to automate the reconciliation of transaction data between two enterprise systems, processing approximately **5,000** records daily.
- Implemented robust error handling and logging using **SQL** queries against PostgreSQL to identify and flag discrepancies, reducing manual reconciliation effort by **40%**.
- Containerized the Python service using **Docker** for consistent execution across development and production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
