HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained enterprise applications using **Java Spring Boot**, implementing RESTful APIs and resolving production defects to ensure service continuity.
- Engineered **Python scripts** for automating ETL processes and generating scheduled reports, improving data processing efficiency for operational teams.
- Managed production support for critical enterprise systems, responding to P1/P2 incidents and performing root cause analysis using **Splunk** and **Dynatrace** to meet strict SLAs.
- Designed and implemented key features for a global Progress application, adhering to the full development lifecycle from analysis through unit testing and code reviews.
- Collaborated with cross-functional teams to deliver development projects in a commercial environment, focusing on continuous improvement and achieving target delivery dates.
- Investigated and resolved complex issues within the **Progress OpenEdge platform**, including database table and index optimization, to enhance application performance.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, managing infrastructure configuration and ensuring reliable service delivery.

SKILLS

Core Technologies – Progress 4GL, Progress OpenEdge, Java, Python, SQL, REST API, XML, JSON, EDI, Docker, Linux, Unix

Databases – Progress Database, PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git

Development Practices – Agile, Scrum, Unit Testing, Code Reviews, Full Development Lifecycle

Observability & Support – Splunk, Dynatrace, P1/P2 Incident Response, SLA Management

PROJECTS

Enterprise Application Modernization with Progress OpenEdge

- Re-architected core business logic within a **Progress 4GL** application to support enhanced reporting requirements, reducing data retrieval times by **30%**.
- Developed new modules and REST APIs in **Java Spring Boot** to integrate legacy Progress systems with modern enterprise platforms, facilitating data exchange.
- Implemented comprehensive unit tests using **JUnit** and performed rigorous code reviews to ensure code quality and maintainability for the integrated system.

Automated Data Integration Pipeline for Logistics Operations

- Built a **Python**-based ETL pipeline to ingest and transform logistics data from various sources, including **XML** and **JSON** feeds, for downstream processing.
- Designed database schemas and optimized queries in **PostgreSQL** to store and retrieve processed logistics information efficiently, supporting operational dashboards.
- Integrated the pipeline with **Zebra printers** via custom scripting to generate shipping labels and compliance documents directly from processed data.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
