PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented a **Java Spring Boot microservice** for processing incoming transaction data, handling approximately **1,500 events per second** during peak hours.
- Developed and maintained **Hibernate** entities and JPA repositories for a core **enterprise data management system**, ensuring efficient data persistence and retrieval across multiple modules.
- Authored **JUnit and Mockito tests** for critical Java components, achieving over **85% code coverage** and reducing production defects by **18%**.
- Collaborated with Sales Engineers on **technical discovery calls** with enterprise clients, mapping their existing systems and identifying integration points for platform solutions.
- Crafted detailed **architecture diagrams and integration guides** for client-facing proposals, clearly outlining the technical approach and platform fit.
- Presented technical solutions and platform capabilities to **executive-level client stakeholders**, effectively neutralizing objections and accelerating decision-making.
- Containerized a **Java Spring Boot application** using **Docker** and deployed it to an AWS EC2 instance managed via Jenkins CI/CD pipelines.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Domain Knowledge – Payments Processing, Transaction Monitoring, Reconciliation Workflows, ERP Integration Support, API Integrations

PROJECTS

Enterprise Payments Platform Integration (HCL Technologies)

- Developed a **Java Spring Boot service** to ingest and transform payment transaction data from client systems, supporting a **financial-services operations dashboard**.
- Implemented REST APIs for data exchange between the payments dashboard and upstream/downstream enterprise systems, ensuring seamless **transaction flow monitoring**.
- Authored comprehensive **technical documentation** and assisted in UAT coordination for system configuration updates, facilitating smooth change-control management.

Customer Solution Architecture Design

- Designed a scalable and secure **API integration strategy** for a hypothetical enterprise client's point-of-sale and eCommerce systems, aligning with their business outcomes.
- Created detailed **architecture diagrams** and solution narratives to articulate the technical positioning and commercial rationale for platform adoption.
- Conducted simulated **technical discovery** sessions to map client data flows and integration requirements, identifying potential technical risks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
