PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported the end-to-end onboarding of **third-party casino game providers**, gathering integration requirements and acceptance criteria to clarify scope for release planning.
- Provided **data analysis and insights** on game performance and provider integration metrics to inform roadmap planning and prioritization for the Casino Product team.
- Managed the product backlog for **casino game provider integrations** and related platform capabilities, ensuring alignment with regulatory, technical, and business requirements.
- Developed and maintained **Java Spring Boot REST APIs** for cross-service data exchange, implementing request validation and circuit-breaker patterns.
- Engineered **Python data pipelines** to automate ETL processes for operational reporting, processing approximately **15,000 records** daily from various enterprise systems.
- Containerized microservices using **Docker** and deployed them to a **Kubernetes** cluster (EKS), configuring Helm charts for predictable rollouts and resource management.
- Collaborated with engineering and compliance teams to prepare documentation and track progress for **regulatory processes** related to game content and integrations.

SKILLS

Product Analysis – Product Backlog Management, Requirements Gathering, Acceptance Criteria, User Stories, Documentation, Roadmap Planning, Prioritization, UAT Support, Regulatory Compliance

Integration Management – Third-Party Integrations, External Partners, API Integration, System Architecture, Data Flows

Data Analysis & BI – Data Analysis, SQL, Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence, Statistical Analysis, R, Python (pandas, NumPy)

Core Engineering – Java, Spring Boot, REST APIs, Python, Docker, Kubernetes, AWS (EC2, S3, Lambda, CloudWatch), Linux, Git, Jenkins

Domain Knowledge – iGaming, Casino Games, Online Sportsbook, Gaming Regulations, Enterprise Systems Support

PROJECTS

Casino Game Provider Integration Framework

- Designed and implemented a standardized framework in **Java Spring Boot** to streamline the integration of new casino game providers, reducing onboarding time by an average of **20%**.
- Developed automated testing suites using **JUnit** to validate provider API responses against defined integration contracts, catching approximately **65%** of integration issues pre-production.
- Created comprehensive technical documentation and integration guides for external partners, facilitating smoother onboarding and reducing post-launch support tickets by **15%**.

Promotions Tooling Data Pipeline

- Built a **Python ETL pipeline** using pandas and SQL to ingest and transform data from various marketing and customer service platforms into a centralized data warehouse.
- Developed **Power BI dashboards** to visualize promotion performance metrics, user engagement, and campaign ROI for internal stakeholders, enabling data-informed decision-making.
- Automated report generation and distribution via scheduled **SQL Server Reporting Services (SSRS)** jobs, saving approximately **5 hours** of manual effort per week for the marketing operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
