PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and deployed **Windows 10 images** using **MDT** for a large-scale project, ensuring consistent device builds for over 500 endpoints.
- Executed user profile migrations, transferring essential data and settings to new devices, facilitating a seamless transition for end-users across the deployment.
- Installed and verified **customer-requested applications** on deployed devices, confirming functionality and adherence to project specifications.
- Managed device deployment schedules and tracked progress using **Jira**, coordinating with the project lead to meet daily rollout targets.
- Provided **customer-facing support** during device rollout, addressing user queries and resolving immediate technical issues encountered during setup.
- Administered user accounts and group policies within **Active Directory** to prepare devices for network integration and application access.
- Participated in daily stand-ups and conducted **code reviews** for deployment scripts, ensuring adherence to established best practices and standards.

SKILLS

Deployment Tools – MDT, SCCM

Operating Systems – Windows 10, Linux

Directory Services – Active Directory

Cloud Services – Office 365, AWS

Scripting & Automation – Python, Shell Scripting

Project Management – Jira, Confluence, Agile

Development Tools – Git, Jenkins, Docker

PROJECTS

Enterprise Device Imaging and Rollout

- Developed and refined **Windows 10 deployment images** using **MDT**, incorporating standard corporate software and security configurations for a fleet of 300+ laptops.
- Automated application installations via **Python scripting**, integrating with the deployment process to ensure all user-specific software was provisioned correctly.
- Managed the end-to-end deployment lifecycle, from imaging to user handoff, coordinating with operations teams to meet aggressive project timelines.

Automated User Profile Migration Tool

- Engineered a **Python-based utility** to automate the backup and restore of user profiles, reducing manual effort by approximately 60% during device refreshes.
- Integrated the tool with **Active Directory** to dynamically identify user data and target locations, ensuring secure and accurate data transfer.
- Developed a simple command-line interface for the tool, enabling technicians to easily initiate migration tasks with minimal training.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
