PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed, developed, and maintained scalable ETL pipelines and data integration processes, processing approximately **1.5 TB** of data weekly for financial reporting.
- Wrote, optimized, and troubleshot complex **SQL queries**, stored procedures, and functions within **SSMS**, reducing average query execution time by **30%**.
- Developed and maintained **SSRS reports** and operational dashboards, providing key business insights on transaction volumes and system performance to stakeholders.
- Managed and tuned **SQL Server databases** for optimal performance and scalability, implementing indexing strategies that improved data retrieval speeds by an average of **22%**.
- Collaborated with business stakeholders to translate complex requirements into robust data solutions, ensuring alignment with strategic objectives and data governance practices.
- Performed data analysis and validation across large datasets to support reporting needs and inform decision-making, identifying and resolving data integrity issues.
- Containerized data pipeline components using **Docker** and deployed them to an **AWS EC2** environment, ensuring consistent execution and simplified management.

SKILLS

Database Technologies – Microsoft SQL Server, SQL Server Management Studio (SSMS), SQL Server Reporting Services (SSRS), SQL Server Integration Services (SSIS), PostgreSQL, MySQL, Oracle

Data Engineering & ETL – ETL development, Data Warehousing, Data Integration, Data Pipelines, Query Optimization, Database Design

Analytics & BI Tools – SAS (Base/EG), Power BI, Tableau, DAX, Power Query

Programming & Scripting – SQL Scripting, Python, R

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD, Jenkins, Git

PROJECTS

Financial Data Pipeline Enhancement (HCL Technologies)

- Engineered an ETL pipeline using **Python** and **SQL Server Integration Services (SSIS)** to ingest and transform data from multiple enterprise systems, supporting reconciliation workflows.
- Implemented robust data validation checks and error handling mechanisms within the pipeline, reducing data-related discrepancies by **18%** for downstream reporting.
- Optimized data loading processes and database queries against **SQL Server**, contributing to a **25%** reduction in overall report generation time.

Operational Dashboard for Transaction Monitoring (HCL Technologies)

- Developed interactive dashboards using **Power BI** and **SSRS** to visualize key operational metrics and transaction flow status for a financial services client.
- Wrote complex **SQL queries** and **DAX measures** to aggregate and analyze high-volume transaction data, enabling real-time monitoring and alerting.
- Collaborated with business analysts to gather requirements and refine dashboard visualizations, ensuring clear and actionable insights for operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
