# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices to manage core go-to-market functionalities, including customer segmentation and pipeline tracking, achieving **~15% reduction** in data processing latency.
- Developed and maintained **Hibernate** entities and complex queries to support the unified data intelligence infrastructure, ensuring data integrity for over **50,000 customer records**.
- Engineered **JUnit** and **Mockito** test suites for critical backend services, increasing code coverage by **22%** and reducing production bugs by **18%**.
- Collaborated with product leadership and engineering teams to translate business needs into scalable software features, contributing to the design of new self-service customer journeys.
- Built and deployed production-ready solutions for internal users, focusing on rapid iteration and end-to-end ownership of system architecture, development, and monitoring.
- Worked directly with internal stakeholders to gather requirements for go-to-market system improvements, translating feedback into actionable technical specifications and code enhancements.
- Containerized go-to-market system components using **Docker** and deployed them to a managed Kubernetes environment on **AWS EKS**, ensuring consistent development and production parity.

## SKILLS

**Backend Development** – Java, Spring Boot, Hibernate, JPA, REST APIs, Microservices, JUnit, Mockito, Maven

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch, EKS), Docker, Kubernetes, Jenkins, Git, CI/CD

**Data Engineering & Analytics** – SQL, PostgreSQL, Python, pandas, NumPy, ETL, Data Warehousing, Business Intelligence

**Frontend & UI** – React, Angular, HTML, CSS

**Tools & Methodologies** – Jira, Confluence, Agile, Scrum, Linux, Shell Scripting, Splunk, Dynatrace

## PROJECTS

### Customer Targeting System Enhancement (HCL Technologies)

- Developed a **Python**-based data pipeline to ingest and unify customer interaction data from multiple sources, creating a single source of truth for commercial teams.
- Implemented **SQL** queries and transformations to enrich customer profiles with behavioural attributes, directly supporting improved targeting accuracy for marketing campaigns.
- Designed and deployed the system on **AWS Lambda**, processing approximately **2,000 events per hour** and integrating with existing CRM systems via REST APIs.

### Internal Sales Operations Dashboard

- Built an interactive **Power BI** dashboard to visualize key go-to-market metrics, including pipeline generation, customer acquisition trends, and revenue performance.
- Developed custom **DAX measures** and performed data modeling in Power Query to aggregate data from various internal systems, enabling self-service analytics for the sales leadership.
- Published and maintained the dashboard on the Power BI service, providing real-time insights to an audience of **15+ stakeholders** across sales and marketing departments.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
