HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Installed, configured, and commissioned **UPS systems** and **precision cooling units** for enterprise data center facilities, ensuring operational readiness within project timelines.
- Performed scheduled preventive maintenance on critical power and cooling infrastructure, diagnosing and repairing faults to meet stringent **SLA response and recovery times**.
- Acted as the L1 engineer, logging and responding to customer service requests and incidents, performing first-level diagnosis remotely via **NetEco alarms** and on-site.
- Conducted site surveys and pre-installation checks for data center facility products, producing comprehensive **commissioning reports** and coordinating with site teams.
- Managed spare parts inventory and generated detailed **fault analysis reports** for field return components, feeding insights back to product teams.
- Provided L1 customer support, owning tickets from initial contact to closure, and escalating complex issues with complete fault information to L2 support.
- Contributed to delivering O&M; services, including periodic health checks and firmware upgrades, tracking **SLA and KPI performance** for monthly service reports.

SKILLS

Data Center Infrastructure – UPS systems, power distribution, lithium battery systems, precision cooling, prefabricated modular data centers, single-line diagrams, electrical schematics, P&IDs;

Support & Maintenance – Preventive maintenance, fault diagnosis, remote troubleshooting, L1 customer support, incident handling, on-call rotation, spare parts management, fault analysis

Monitoring & Reporting – NetEco, DCIM alarms, logs, commissioning reports, monthly service reports, SLA, KPI performance

Customer & Vendor Management – Customer communication, site surveys, acceptance tests, coordination with contractors, L1 escalation, knowledge transfer

Safety & Standards – Site safety rules, permit-to-work, LOTO, method statements (RAMS), Irish and EU electrical safety standards, Safe Isolation Practice

Tools & Technologies – Multimeters, power analysers, thermal cameras, Git, Jenkins, Jira, Confluence, Linux, shell scripting

PROJECTS

Data Center Infrastructure Commissioning (HCL Technologies)

- Executed installation and commissioning of **UPS systems** and **power distribution units** for a large-scale enterprise data center expansion project.
- Performed on-site acceptance testing and generated detailed **commissioning reports**, verifying system performance against design specifications.
- Coordinated with electrical contractors and the customer's facility management team to ensure seamless integration and handover of new infrastructure.

Critical Incident Response & Support (HCL Technologies)

- Provided 24/7 on-call support for critical infrastructure incidents, diagnosing issues using **Splunk logs** and **Dynatrace** to restore service within defined SLAs.
- Managed ticket lifecycle from initial report to resolution, documenting root causes and implementing corrective actions to prevent recurrence.
- Developed and maintained operational runbooks that reduced average incident resolution time by **15%** for common P1/P2 events.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
