PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed a **Linux** server environment supporting critical healthcare applications, responding to and resolving over **150 P1/P2 incidents** annually with a focus on minimizing service disruption.
- Developed **Python** automation scripts to streamline routine system administration tasks, reducing manual intervention time by approximately **30%** for the IT support team.
- Executed change management procedures for system configuration updates across interconnected enterprise systems, coordinating User Acceptance Testing for **8 major releases**.
- Configured and maintained **TCP/IP** network services, including DNS and DHCP, ensuring reliable connectivity for over **2,000 end-users** across multiple sites.
- Implemented and managed **WiFi** network infrastructure, including access point configuration and troubleshooting, to support mobile device connectivity for clinical staff.
- Provided technical support for enterprise applications, diagnosing and resolving issues related to **Java Spring Boot** services and underlying databases (**PostgreSQL**).
- Containerised and deployed internal tooling using **Docker**, facilitating consistent development and testing environments for the engineering team.

SKILLS

Networking – TCP/IP, Switching, WiFi, DNS, DHCP, Network Infrastructure

Operating Systems – Linux, Shell Scripting

Programming & Scripting – Python, Java, Spring Boot

Databases – PostgreSQL, MySQL, Oracle

Cloud & Virtualization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Tools & Methodologies – Jenkins, Git, Jira, Confluence, Agile, Scrum, Splunk, Dynatrace

PROJECTS

Healthcare Network Infrastructure Modernization

- Designed and implemented a phased upgrade for the **WiFi network** infrastructure across 5 regional healthcare facilities, improving signal strength and device connectivity for over **1,500 clinical staff**.
- Authored comprehensive **runbooks** for common network troubleshooting scenarios, reducing average incident resolution time by **22%** for the Tier 1 support team.
- Integrated **Splunk** for enhanced network traffic monitoring and log analysis, enabling proactive identification of potential connectivity bottlenecks.

Automation of IT Operations Tasks

- Developed a suite of **Python** scripts to automate user account provisioning and deprovisioning within an **Active Directory** environment, processing approximately **50 requests** per week.
- Built automated reporting scripts using **SQL** queries against Oracle databases to track system performance metrics, delivering weekly summaries to the operations lead.
- Containerised the automation scripts using **Docker** for simplified deployment and management on the central Linux server fleet.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
