HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Authored **Java Spring Boot** microservices to manage user authentication and authorization, implementing RESTful APIs that handled 500+ requests per second during peak loads.
- Developed and maintained **Hibernate** entities and data access objects for a core banking system, ensuring transactional integrity across complex financial data models.
- Designed and implemented robust **JUnit** and **Mockito** test suites for critical Java components, increasing code coverage by **18%** and reducing production defects.
- Contributed to **security requirement definition** for new features, working with product managers to integrate security considerations early in the development lifecycle.
- Participated in **code reviews** for peer engineers, providing constructive feedback on code quality, security best practices, and adherence to architectural standards.
- Collaborated with cross-functional teams to perform **technical estimations** for new feature development, breaking down complex requirements into manageable sprint tasks.
- Containerized backend services using **Docker** and deployed them to an **AWS EC2** environment, configuring basic resource limits and network security groups.

SKILLS

Languages – Java, Python, SQL, Bash

Frameworks/Libraries – Spring Boot, Hibernate, Spring Security, JUnit, Mockito, pandas, NumPy

Cloud/DevOps – AWS (EC2, S3, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools – Jira, Confluence, Splunk, Dynatrace

Security – Threat Modelling, Security Requirements, Authentication, Authorization, Secure Coding Practices

PROJECTS

Java Security Service for Enterprise Applications

- Developed a centralized **Java Spring Security** service to manage authentication and authorization for multiple internal enterprise applications, integrating with existing identity providers.
- Implemented fine-grained access control policies using role-based access control (RBAC) and integrated **Spring Data JPA** with PostgreSQL for persistent storage of user roles and permissions.
- Crafted comprehensive **JUnit** tests to validate security logic and API endpoints, ensuring consistent and secure access across integrated systems.

Python-based Security Tooling Automation

- Built a **Python** CLI tool to automate the generation of security assessment reports by parsing logs from **Splunk** and identifying common vulnerability patterns.
- Integrated the tool with **Git** to automatically scan code repositories for insecure configurations and flag potential risks before deployment.
- Scripted data extraction and transformation using **pandas** to prepare findings for review by the security operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
