PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and resolved an average of **15-20** IT support tickets daily, covering a range of hardware, software, and network issues for internal staff.
- Installed, configured, and troubleshot **Microsoft Operating Systems** (Windows 10/11) and **Microsoft Applications** (Office 365 Suite) across user workstations.
- Performed routine **system security checks**, including antivirus scans and user access reviews, and managed daily **system backups** using automated scripts.
- Provided first-line technical support for internal users, diagnosing and resolving issues related to **hardware** (laptops, printers) and **software**.
- Collaborated with senior technical staff to escalate complex issues and ensure seamless **system connectivity** and compatibility across the network.
- Maintained accurate inventories of **hardware and software** assets, user access permissions, and security records using a central tracking system.
- Delivered occasional **technical training** sessions to end-users on new software deployments and IT best practices, improving user adoption by an estimated **20%**.

SKILLS

Operating Systems – Microsoft Windows (10/11), Linux

Applications – Microsoft Office 365 Suite, Antivirus Software, Spyware/Malware Applications

Support Tools – Ticketing Systems, Active Directory, IT Hardware & Software Installation, Troubleshooting Procedures

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

Programming & Scripting – Python, Java, SQL

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Jenkins, Git

PROJECTS

Internal IT Support Ticket Management System Enhancement

- Developed a **Python script** to automate the categorization and initial routing of incoming IT support tickets, reducing manual triage time by approximately **30%**.
- Integrated the ticketing system with **Active Directory** to streamline user access verification for password resets and account unlocks, improving resolution speed for common requests.
- Authored comprehensive **runbooks** and troubleshooting guides for common hardware and software issues, used by the service desk team to standardize support delivery.

Automated IT Asset Inventory and Reporting

- Built a **Python-based tool** to scan the local network and collect data on installed software and hardware configurations, populating a central database.
- Generated weekly **status reports** on hardware and software inventory, license compliance, and user access levels, providing key data for IT management.
- Designed and implemented a basic **REST API** using Flask to allow other internal systems to query asset information, enhancing data accessibility.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
