PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production support for enterprise applications, responding to **P1/P2 incidents** and maintaining adherence to strict **SLA targets** across multiple manufacturing cells.
- Developed **Python scripts** to automate data extraction and reporting for process analysis, reducing manual effort by approximately **35%**.
- Executed ad-hoc **SQL queries** against production databases for data validation and troubleshooting, supporting data integrity for quality reporting.
- Supported the definition and validation of manufacturing processes for **upgrade products** and new product introductions, collaborating with cross-functional engineering teams.
- Provided technical support for **mechanical and electrical assembly jigs**, fixtures, and purpose-built test equipment, ensuring operational readiness.
- Collaborated with Production Staff to analyze manufacturing data, identifying areas for quality standards improvement and process optimization.
- Containerized **Java Spring Boot** microservices using **Docker** for deployment to a cloud environment, ensuring consistent build and runtime configurations.

SKILLS

Manufacturing Support – Production Support, Process Improvement, Manufacturing Cells, Assembly Jigs, Test Equipment, Quality Reporting, Problem-Solving Techniques

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, pandas, NumPy

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Splunk, Dynatrace, Jira, Confluence, Agile/Scrum, Six Sigma, Lean Projects, GD&T;

PROJECTS

Manufacturing Data Analytics Platform (HCL Technologies)

- Developed a **Python-based data pipeline** to ingest and process real-time manufacturing data from various cell sensors and equipment logs.
- Created automated **SQL queries and scripts** to extract and aggregate key performance indicators (KPIs) for production quality reporting, reducing report generation time by **40%**.
- Implemented basic data visualizations in **Power BI** to track process capability metrics and identify deviations from expected operational parameters.

Production Incident Response Automation (HCL Technologies)

- Engineered **Python automation scripts** to parse logs from **Splunk and CloudWatch**, automatically correlating alerts and identifying root causes for common production issues.
- Designed and implemented automated ticket generation in **Jira** for critical incidents, including preliminary diagnostic data, improving incident response triage speed for the operations team.
- Maintained and documented the automation scripts, contributing to a knowledge base that reduced average incident resolution time by **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
