HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the end-to-end **Vulnerability Management** lifecycle, including identification, risk assessment, and prioritisation for critical security findings.
- Coordinated **CBEST and DORA-related testing** across EMEA, ensuring adherence to regulatory requirements and industry security standards.
- Produced **Cyber Security Risk Reports** and management dashboards, communicating key findings and remediation progress to senior stakeholders.
- Collaborated with **Cloud Security** and Application Security teams to coordinate security testing and drive timely remediation efforts.
- Contributed to the continuous improvement of **security testing frameworks** and cyber resilience capabilities through post-incident reviews.
- Developed **Python scripts** to automate the generation of vulnerability assessment reports, reducing manual effort by approximately **40%**.
- Containerised security assessment tools using **Docker** for consistent deployment across different testing environments.

SKILLS

Cyber Security Testing – Penetration Testing, Vulnerability Management, CBEST, DORA, Cyber Resilience Testing

Security Standards & Frameworks – NIST, ISO 27001, OWASP

Tools & Technologies – Penetration Testing Tools, Vulnerability Assessment Tools, Cloud Security, Security Automation

Programming & Scripting – Python, Shell Scripting

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

DevOps & CI/CD – Docker, Jenkins, Git

PROJECTS

Automated Vulnerability Reporting System (HCL Technologies)

- Developed a **Python** application to parse vulnerability scan outputs and generate structured reports, improving reporting efficiency by **30%**.
- Integrated the system with **Jira** to automatically create tickets for identified critical vulnerabilities, streamlining the remediation workflow.
- Designed and implemented a REST API using **Flask** for programmatic access to vulnerability data, enabling integration with other security tools.

Cloud Security Posture Enhancement (HCL Technologies)

- Assessed and enhanced **AWS** security configurations for multiple client environments, focusing on IAM, security groups, and S3 bucket policies.
- Authored **Shell scripts** to automate routine security checks on EC2 instances, identifying misconfigurations and compliance drifts.
- Containerised security assessment tools with **Docker**, facilitating consistent execution in both development and production-like environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
