PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered and integrated data from multiple spreadsheets and business systems for a critical project, ensuring comprehensive data capture.
- Cleaned and standardized disparate data sources, removing duplicates and rectifying incorrect information to establish reliable records.
- Designed and built a structured database to meet specific business requirements, focusing on maintainability and ease of future reporting.
- Developed and applied Excel formulas, lookup functions, and PivotTables to organize, analyse, and validate project data accurately.
- Created clear and concise reports and dashboards, translating complex data into easily understandable visualisations for stakeholders.
- Established documented processes for data entry, updates, and ongoing record maintenance to ensure data integrity post-project.
- Collaborated with internal staff to understand their information needs and how data would be consumed, tailoring the database and reports accordingly.

SKILLS

Data Analysis – Excel, Power Query, Power BI, SQL, Data Modelling, Data Organisation, Data Validation

Database Management – Microsoft Access, Database Design, Data Structuring, Record Maintenance

Reporting & Dashboards – Excel PivotTables, Power BI Dashboards, Data Visualisation

ETL & Data Cleaning – Data Standardization, Duplicate Removal, Information Rectification

Core Technologies – Python, Java, SQL, Spring Boot, AWS, Linux, Git

PROJECTS

Data Integration and Database Construction Project

- Combined data from various sources, including spreadsheets and operational systems, into a unified dataset for analysis.
- Implemented data cleaning routines using Excel and Python scripting to standardize formats, remove duplicates, and identify inconsistencies.
- Designed and populated a relational database schema to store and manage the integrated information effectively.

Business Reporting Dashboard Development

- Developed interactive dashboards using **Power BI** to visualise key project metrics and trends for business stakeholders.
- Applied **DAX measures** and Power Query to transform raw data into meaningful insights, enabling better decision-making.
- Documented the dashboard design, data sources, and calculation logic to facilitate user understanding and future maintenance.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
