HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Executed **Dynamic Application Security Testing (DAST)** scans using various tools, analysing results and triaging findings to accurately record vulnerabilities and risks in **Octane**.
- Developed and executed **security test plans** and scenarios based on analysed requirements and solution architecture, ensuring comprehensive coverage of potential security gaps.
- Collaborated with developers, architects, and team members to investigate identified vulnerabilities, support remediation efforts, and verify the effectiveness of fixes.
- Provided clear and concise **reporting on security testing progress**, findings, and risks to project teams and stakeholders, facilitating informed decision-making.
- Enhanced testing processes by performing **manual security testing** where automation was not feasible, identifying opportunities to automate repeatable security testing activities.
- Contributed to the integration of security testing into **CI/CD and DevSecOps practices**, supporting continuous improvement of testing methodologies and tools.
- Managed production environments for enterprise applications, responding to P1/P2 incidents and performing root cause analysis to maintain service level agreements.

SKILLS

Testing Methodologies – Dynamic Application Security Testing (DAST), Functional Testing, Integration Testing, Security Testing, Agile Methodologies, DevOps

Tools & Platforms – Octane, Azure DevOps, Postman, SoapUI, Jenkins, Jira, Confluence, Splunk, Dynatrace

API Testing – REST APIs, SOAP Web Services

Development Languages – Java, Spring Boot, Python, SQL

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

PROJECTS

Security Vulnerability Assessment for Enterprise Services

- Performed comprehensive security testing on internal Java Spring Boot services, identifying and documenting vulnerabilities using **DAST tools**.
- Analysed API endpoints with **Postman** and **SoapUI**, verifying security controls and reporting on potential risks to system integrity.
- Collaborated with development teams to triage findings and validate remediation efforts, ensuring adherence to security standards.

Automated Security Testing Integration in CI/CD Pipeline

- Integrated automated security scanning tools into the **Jenkins CI/CD pipeline** for a Python-based data processing application.
- Developed scripts to parse and triage security scan results, automatically logging critical findings into **Jira** for developer review.
- Reduced manual security testing effort by **40%** through automation, enabling faster feedback loops for development teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
