PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained Java Spring Boot microservices, building RESTful APIs for inter-service communication and handling approximately 1,500 requests per minute.
- Designed and implemented database schemas and performed complex SQL queries across PostgreSQL and Oracle databases, supporting data validation for critical financial operations.
- Automated repetitive tasks and data processing workflows using Python scripting, reducing manual effort by an estimated 15 hours per week for the operations team.
- Collaborated within an Agile Scrum team, participating in sprint planning, daily stand-ups, and code reviews for new feature development and bug fixes.
- Managed application lifecycle and deployments using Jenkins pipelines, Git branching strategies, and containerization with Docker for consistent environments.
- Analyzed application logs and system metrics using Splunk and Dynatrace to troubleshoot P1/P2 incidents and ensure adherence to service-level agreements.
- Contributed to the development of a payments operations dashboard, focusing on enhancing transaction monitoring and operational alerting for failed payment messages.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools/Observability – Splunk, Dynatrace, Jira, Confluence, Autosys

BI/Analytics – Power BI, Tableau, DAX, Power Query

PROJECTS

Java Application Support & Enhancement

- Provided production support for enterprise Java applications, diagnosing and resolving P1/P2 incidents within strict SLA parameters.
- Developed new features and refactored existing code in Java Spring Boot applications, improving system stability and performance.
- Automated data extraction and reporting tasks using Python scripts, generating daily operational summaries for key stakeholders.

Data Analytics & Dashboard Development

- Designed and built interactive Power BI dashboards to visualize key operational metrics and performance indicators for business stakeholders.
- Developed complex DAX measures and Power Query transformations to aggregate and analyze data from multiple sources for reporting.
- Applied statistical analysis techniques in R to explore datasets and validate hypotheses for MSc coursework projects.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
