PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Linux-based infrastructure systems** for enterprise clients, ensuring high availability and performance.
- Monitored system performance across **compute and storage solutions**, proactively identifying and resolving potential issues to prevent escalation.
- Responded to and managed **infrastructure incidents and support requests** within defined SLAs, prioritizing based on customer and business impact.
- Managed the **change control process** for infrastructure updates, including risk assessment, testing, and rollback planning to minimize disruption.
- Maintained comprehensive and accurate **documentation of systems, configurations, and procedures** for both internal and customer environments.
- Collaborated with internal teams and **customer stakeholders** to ensure infrastructure met operational and service level requirements.
- Applied **security best practices**, including access control and patch management, to maintain the integrity of hosted environments.

SKILLS

Operating Systems – Linux, Windows Server 2012, 2016, 2019, 2022

Virtualization – VMware vSphere

Microsoft Technologies – Active Directory, DNS, DHCP, RDS, File Services, Certificate Services, Server Administration

Infrastructure – Compute, Storage, Data Centres, Networking (routing, firewall, wireless AP)

Management Processes – Incident Management, Problem Management, Change Management

Cloud & Tools – AWS, Docker, Jenkins, Git, Splunk, Dynatrace

PROJECTS

Enterprise Linux Infrastructure Overhaul

- Revamped the **Linux operating system environment** for a critical enterprise application, improving stability and reducing system-level incidents by **18%**.
- Implemented automated patching and configuration management using **shell scripting** and **Jenkins pipelines**, streamlining deployment cycles.
- Developed comprehensive monitoring dashboards in **Splunk** to track system health and resource utilization across the server fleet.

Windows Server Datacenter Support Enhancement

- Supported and troubleshot **Windows Server** environments, including **Active Directory**, **DNS**, and **File Services**, for a large financial services client.
- Managed change requests and configuration updates for **Microsoft Server technologies**, ensuring adherence to strict change control policies.
- Participated in root cause analysis for P1/P2 incidents, contributing to the development of preventative measures and improved operational runbooks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
