PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Diagnosed and resolved escalated technical issues on employee computer systems and mobile devices, managing ticket lifecycles to maintain high customer satisfaction.
- Developed and delivered training materials and procedures for end-users on company hardware and software, enhancing overall system adoption and proficiency.
- Analyzed system, software, and hardware functionality to identify and troubleshoot complex issues, recommending and implementing effective solutions.
- Researched and evaluated network and data communications hardware and software, proposing upgrades to improve existing technology infrastructure.
- Designed and implemented equipment set-up instructions and provided end-to-end support for employee hardware installations and configurations.
- Responded to and managed employee inquiries regarding technical support for software, hardware, and systems, ensuring timely and accurate resolutions.
- Managed production support for enterprise Java applications on **AWS**, focusing on **SLA management** and **P1/P2 incident response** using **Splunk** and **Dynatrace**.

SKILLS

Networking – Routing and Switching, Voice over IP (VoIP), Unified Communications, Telephone Systems, MPLS Architecture, Time-Division Multiplexing (TDM), QoS Management

Support & Operations – Troubleshooting, System Administration, Active Directory (AD), Ticketing, Complex Technical Inquiries, User Training, Global Roaming

Software Development – Agile Methodology, Software as a Service (SaaS), Presales

Core Technologies – Java, Spring Boot, Python, SQL, AWS, Linux, Docker, Jenkins, Jira, Confluence

Data & BI – Business Intelligence (BI), Power BI, Tableau, DAX, Power Query

PROJECTS

Enterprise System Health Monitoring & Alerting

- Developed a comprehensive monitoring solution using **Splunk** and **CloudWatch** to track the operational health of critical enterprise applications, reducing P1 incident detection time by 30%.
- Automated root cause analysis for common P2 incidents using **Python** scripts, enabling faster resolution and reducing system downtime.
- Managed incident response and ticket resolution for a suite of Java applications, ensuring adherence to strict service level agreements.

End-User Technology Training & Support Platform

- Designed and implemented a centralised knowledge base and training portal using **Confluence**, improving access to technical documentation for over 500 employees.
- Created interactive training modules for new software rollouts, covering key features and troubleshooting steps for **Windows** and **macOS** environments.
- Provided direct technical support for employee inquiries, troubleshooting issues related to hardware, software, and network connectivity.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
