PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed a queue of **~50-75 daily IT support tickets**, resolving issues related to **macOS** and **Windows 11** operating systems, user accounts, and common software applications.
- Provided **first-level IT support** for remote employees, handling access requests, user account provisioning/deprovisioning across **Atlassian Cloud** and **Google Workspace**.
- Authored and maintained **15+ knowledge base articles** detailing common troubleshooting steps for software and hardware issues, reducing repeat ticket submissions by an estimated **18%**.
- Configured and managed **Jira Service Management** queues, request types, and basic automation rules to streamline ticket handling and SLA adherence for the internal IT team.
- Assisted in the setup and configuration of new employee laptops, including imaging, software installation, and network connectivity for both **macOS** and **Windows** environments.
- Developed a **Python script** to automate the generation of monthly user access reports, reducing manual effort by approximately **4 hours per month**.
- Collaborated with senior IT staff to troubleshoot and escalate complex infrastructure issues, gaining exposure to **network diagnostics** including DNS and VPN.

SKILLS

Operating Systems – macOS, Windows 10, Windows 11, Linux

Cloud Services – Atlassian Cloud, Google Workspace

IT Support Tools – Jira Service Management, Confluence, Splunk, Dynatrace

Scripting & Automation – Python, Bash, PowerShell

Networking Fundamentals – DNS, DHCP, VPN, Wi-Fi

Security – MFA, Least Privilege, Identity and Access Management

PROJECTS

IT Service Desk Enhancement Initiative (HCL Technologies)

- Developed a set of **Python scripts** to automate repetitive tasks within the IT service desk, such as user account creation and software license assignment, improving team efficiency by **15%**.
- Authored comprehensive **user guides and documentation** for common IT procedures, which were integrated into the internal knowledge base and used for new hire onboarding.
- Contributed to the configuration of the **ticketing system**, implementing custom fields and workflows to better categorize and track incoming support requests related to enterprise applications.

Remote Employee Onboarding Automation (MSc Project)

- Designed and implemented a streamlined onboarding process for remote employees using a combination of **PowerShell scripting** for Windows setup and **Apple Business Manager integration** principles for macOS.
- Created automated workflows for user account setup in cloud directories like **Google Workspace** and for access provisioning to essential SaaS tools.
- Documented the end-to-end onboarding procedure, including security best practices and initial troubleshooting steps, as part of the final project submission.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
