PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Translated complex business needs from stakeholders in the Sports Betting & Gaming industry into detailed functional specifications for engineering teams, ensuring alignment with client objectives.
- Facilitated requirements gathering workshops with clients and internal technical teams, documenting user stories and acceptance criteria within **Jira** to define product scope for new features.
- Analyzed and documented existing business processes and system integrations for CRM/CDP platforms, identifying areas for improvement and proposing solutions to enhance customer engagement workflows.
- Supported the UAT phase for new feature releases, coordinating with business users and development teams to resolve defects and ensure successful go-live within defined project timelines.
- Developed and maintained comprehensive documentation, including process flows and system guides, for **GDPR** compliance and operational best practices within customer data platforms.
- Collaborated with data analysts and product managers to define requirements for AI-driven insights and reporting, translating business questions into data needs for analysis.
- Managed change requests and defect tracking through **Jira** and **Confluence**, ensuring clear communication and traceability for all project iterations.

SKILLS

Business Analysis – Requirements Gathering, Stakeholder Management, Functional Specifications, User Stories, Acceptance Criteria, Process Mapping, UAT, Change Management, Documentation

Tools & Platforms – Jira, Confluence, CRM, CDP, Microsoft Office Suite

Domain Knowledge – Sports Betting, Gaming Industry, Customer Engagement, GDPR Compliance

Methodologies – Agile, Scrum

Technical Skills – SQL, Python, Java, REST APIs, AWS, Docker, Linux

PROJECTS

Customer Engagement Analytics Dashboard Implementation

- Designed and documented requirements for an analytics dashboard focused on customer engagement metrics within the gaming sector, translating business questions into data points for analysis.
- Collaborated with data engineers to define data models and ETL processes required to populate the dashboard, ensuring data accuracy and accessibility for reporting.
- Developed interactive visualizations and key performance indicators using **Power BI** to present insights on customer behavior and campaign effectiveness to business stakeholders.

GDPR Compliance Workflow Automation

- Analyzed existing data handling procedures to identify **GDPR** compliance gaps within customer data platforms.
- Documented requirements for automated workflows to manage user consent and data deletion requests, reducing manual effort and improving compliance adherence.
- Created process flow diagrams and functional specifications for the development of these automation features, coordinating with the engineering team for implementation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
