HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and built **Android native applications** using **Kotlin**, ensuring high performance and responsiveness for core user-facing features.
- Collaborated with product managers and designers to translate user requirements into pragmatic and effective **technical solutions** for new feature development.
- Identified and resolved performance bottlenecks and critical bugs within the mobile application, improving overall **application stability** and user experience.
- Integrated mobile applications with **backend services** through **RESTful APIs** and microservices architecture, facilitating seamless data exchange.
- Participated in code reviews and brainstorming sessions, contributing ideas to enhance the **technology stack**, algorithms, and product features.
- Managed application state and data flow using modern **Android development patterns**, ensuring maintainability and scalability for a user base of over 5 million.
- Containerized application components and deployment pipelines using **Docker**, contributing to CI/CD automation for faster and more reliable releases.

SKILLS

Mobile Development – Android, Kotlin, Java, RESTful APIs, Microservices, Git

Tools & Platforms – Docker, Kubernetes, AWS, Cloud Message APIs, Push Notification

Methodologies – Agile, Scrum, Root Cause Analysis, Collaborative Problem Solving

Languages – Kotlin, Java, Python, SQL

Architecture – Web Architecture, Frontend Development

PROJECTS

Ride-Hailing Feature Enhancement (Android Native)

- Developed a new ride-booking interface in **Kotlin**, integrating with existing **backend microservices** via **RESTful APIs** to streamline user trip requests.
- Implemented real-time location tracking and updates for drivers and passengers, improving the accuracy of estimated arrival times by approximately **15%**.
- Wrote unit and integration tests using JUnit and Mockito, achieving over **85%** code coverage for critical booking and navigation modules.

On-Demand Delivery Service Integration

- Built a feature module for an Android application to display and manage delivery order statuses, consuming data from a **microservices** backend.
- Integrated with **cloud message APIs** to send push notifications for order updates, ensuring timely communication with users and reducing support inquiries by **10%**.
- Collaborated with the UI/UX team to ensure a consistent and intuitive user experience across the delivery tracking interface.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
