PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided first-level and advanced troubleshooting for **computer hardware, software, and network issues** across enterprise environments, resolving **Windows 10/11** and **macOS** system problems with **95% first-contact resolution rate** through rapid diagnosis and escalation coordination with Infrastructure, Security, and Database Administration teams.
- Administered and supported **Microsoft 365 products** including Exchange, Teams, SharePoint, and OneDrive; configured user accounts, managed licenses, and resolved authentication and collaboration-space integration issues affecting **200+ concurrent users** with **99.2% uptime SLA**.
- Installed, configured, and maintained **audio/visual equipment** and collaboration-space systems in enterprise offices; performed hardware diagnostics and software updates on **AV systems**, projectors, and video-conferencing endpoints, reducing equipment downtime by **40%** through preventive maintenance schedules and vendor coordination.
- Liaised between Service Delivery, Infrastructure, Security, and Application Development teams to investigate and resolve network issues and system integration failures; escalated critical incidents and coordinated cross-functional triage to restore service availability within **SLA windows** for **300+ office locations**.
- Managed hardware support for **computers, printers, and peripherals** across multiple office sites; performed device provisioning, driver installation, firmware updates, and physical repairs; maintained asset inventory and tracked hardware lifecycle, achieving **98% asset accuracy** and reducing support tickets by **30%**.
- Collaborated with Service Delivery Manager and IT teams to suggest and implement innovative solutions for third-party enterprise systems (**Microsoft, macOS, Adobe**); documented troubleshooting procedures, created user guides, and delivered training to reduce repeat incidents by **35%** while maintaining energetic, confident, and customer-focused service delivery.

SKILLS

Desktop Support & Hardware – computer hardware troubleshooting, computer software troubleshooting, printer support, peripheral support, device provisioning, firmware updates, driver installation.

Operating Systems & Platforms – Windows 10, Windows 11, macOS, system configuration, user account management, local-area-network support.

Microsoft Enterprise Products – Microsoft 365, Exchange, Teams, SharePoint, OneDrive, Office applications, user authentication, license management.

Audio/Visual & Collaboration Systems – audio/visual equipment support, video-conferencing systems, collaboration-space installation, AV system maintenance, equipment diagnostics.

IT Infrastructure & Networking – network troubleshooting, infrastructure liaison, security coordination, database administration collaboration, incident escalation, SLA management.

Adobe Products – Adobe Creative Cloud support, software configuration, license administration.

Professional Skills – energetic and confident customer service, verbal and written communication, team collaboration, multi-tasking, organization, vendor coordination, asset management, documentation, user training.

EDUCATION AND TRAINING

PROJECTS

Cork Digital Centre IT Support & AV Systems Infrastructure Overhaul (HCL Technologies)

- Architected and deployed a comprehensive **third-party enterprise systems support framework** for Acuity's Cork, Ireland Digital Centre of Excellence, consolidating support for **Windows 10/11, macOS, Microsoft 365, and Adobe Creative Cloud** across **150+ office users** and enabling single-point-of-contact triage through a centralized **Service Delivery team liaison model**.
- Redesigned and upgraded **audio/visual equipment and collaboration-space infrastructure** across 12 conference rooms and breakout areas, deploying enterprise-grade video-conferencing systems, interactive displays, and AV control platforms; achieved **99.5% system uptime** and reduced equipment-related support tickets by **45%** through preventive maintenance and vendor service agreements.
- Established cross-functional incident response protocols and escalation pathways with **Infrastructure, Security, Database Administration, and Application Development teams**; implemented structured troubleshooting workflows that reduced average time-to-resolution by **38%** and improved first-contact resolution rate to **92%** for hardware, software, and network issues.
- Implemented hardware asset management and lifecycle-tracking system for **computers, printers, and peripherals** across the Cork office and regional European sites; maintained **100% inventory accuracy** and reduced procurement cycle time by **25%** through automated provisioning workflows and vendor coordination.
- Delivered comprehensive user training and created detailed troubleshooting documentation for **Microsoft 365, macOS administration, and AV system operation**; reduced repeat-incident volume by **40%** and improved user confidence in self-service capabilities through proactive knowledge-base development and hands-on onboarding.

Enterprise Desktop Support & Multi-Platform Help Desk Standardization (HCL Technologies)

- Standardized desktop support procedures and troubleshooting best practices across HCL's enterprise banking and business-systems divisions, developing **Windows 10/11, macOS, and Microsoft 365 support playbooks** that reduced resolution time by **33%** and enabled knowledge transfer to **8 support technicians**.
- Coordinated hardware procurement, configuration, and deployment of **200+ enterprise computers and peripherals** for a multi-office rollout; managed firmware updates, driver compatibility validation, and end-user provisioning to achieve **100% successful deployment rate** with zero post-deployment hardware failures.
- Established liaisons with external and internal vendor support organizations to resolve **network issues, software licensing disputes, and hardware warranty claims**; reduced vendor escalation time by **28%** and recovered **€15,000+ in warranty credits** through proactive vendor management.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
