PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided 1st and 2nd line IT support to 150+ enterprise users across on-premises and remote locations, diagnosing and resolving hardware, software, and network issues using **Jira Service Desk** ticketing system; managed escalation workflows and maintained SLA compliance with **95% first-contact resolution rate**.
- Administered **Microsoft 365, Active Directory, DNS, and DHCP** configurations for multi-site user account provisioning, email setup, and IT access controls; ensured secure credential management and role-based access compliance across **500+ user endpoints**.
- Supported travel industry-specific applications and **Microsoft Office** suite; troubleshoot software compatibility issues, deployed application updates via **Git** and **CI/CD Jenkins pipelines**, and maintained comprehensive IT documentation including troubleshooting guides and system configuration baselines.
- Managed company IT equipment asset register, installed and configured desktops and laptops with **Windows Operating Systems**, performed daily backup verification checks, and monitored system vulnerabilities; escalated security risks to IT Service Providers with **100% incident documentation**.
- Ensured IT security policy compliance and data protection standards across all office infrastructure; managed printer hardware support and network connectivity troubleshooting across multiple office locations in Dublin; coordinated with external IT Service Providers on infrastructure maintenance and firewall/switch configurations.
- Developed and maintained IT user training materials and onboarding documentation; provided technical guidance to non-technical staff on system usage, network connectivity, and device troubleshooting in a fast-paced corporate travel environment; trained users on **Windows, Microsoft 365**, and business application best practices.

SKILLS

IT Support & Service Delivery – 1st Line Support, 2nd Line Support, Jira Service Desk, Ticketing & Escalation Management, SLA Management, Incident Response, User Support, Help Desk Operations.

Systems & Network Administration – Microsoft 365, Active Directory, DNS, DHCP, User Account Management, Email Configuration, IT Access Controls, Network Connectivity, Internet Troubleshooting, System Outage Resolution.

Operating Systems & Hardware – Windows Operating Systems, Desktop Support, Laptop Configuration, Hardware Installation, Printer Management, IT Equipment Asset Management, Backup Verification, Linux (Ubuntu).

Business Applications & Software – Microsoft Office, Application Support, Software Troubleshooting, Travel Industry Systems, Configuration Management, Update Deployment.

Security & Compliance – IT Security Policies, Data Protection, Vulnerability Monitoring, Risk Escalation, Compliance Best Practices, GDPR Awareness.

IT Infrastructure & Tools – Firewalls, Network Switches, Remote IT Support Tools, Monitoring Systems, Documentation Management, Change Control, Git, Jenkins CI/CD.

Professional Skills – Problem-Solving, Troubleshooting, Technical Communication, User Training, Documentation, Independent Task Management, Priority Management, Non-Technical User Support.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Multi-Site IT Support & User Management Platform (HCL Technologies)

- Designed and implemented an enterprise IT support infrastructure supporting **150+ concurrent users** across on-premises Dublin office and remote locations using **Jira Service Desk** ticketing, **Active Directory** user provisioning, and **Microsoft 365** administration; achieved **95% first-contact resolution** and **4-hour average response time**.
- Architected **DNS** and **DHCP** network management configuration with automated user account lifecycle workflows, reducing manual provisioning time by **60%**; implemented role-based access controls and email configuration templates for 500+ endpoints across multiple office locations.
- Developed comprehensive IT documentation suite including troubleshooting guides, system configuration baselines, and user training materials; created automated backup verification scripts and vulnerability monitoring dashboards, reducing security incident discovery time by **70%**.
- Integrated **Git**-based **CI/CD Jenkins pipelines** for application deployment workflows; managed hardware asset inventory system with real-time tracking across desktop, laptop, and printer infrastructure; coordinated with external IT Service Providers on firewall and network switch maintenance.
- Established IT security policy compliance framework and data protection standards (GDPR-aligned); trained 150+ non-technical staff on **Windows** systems, **Microsoft Office**, and application usage; maintained **100% compliance audit rate** and zero security policy violations.

Helpdesk Incident Triage & Escalation Automation (HCL Technologies)

- Built intelligent incident categorization and escalation workflow in **Jira Service Desk**, automatically routing hardware failures, software issues, and network outages to appropriate support tiers; reduced escalation time by **45%** and improved SLA adherence to **98%**.
- Consolidated IT support procedures for travel industry-specific applications, **Microsoft Office** compatibility, and **Windows Operating System** troubleshooting into searchable knowledge base; enabled **2nd line engineers** to resolve **80% of complex tickets** without external escalation.
- Implemented daily automated backup verification checks and system vulnerability monitoring alerts; documented security risks and communicated escalations to IT Service Providers with standardized incident templates and risk matrices.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
