PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Authored and reviewed **21 CFR Part 11 compliant** documentation and **IOQ test protocols** for laboratory systems deployments, ensuring data integrity guidelines and regulatory requirements were met across 8+ capital projects with **zero compliance deviations**.
- Conducted **risk assessments** and change-control evaluations for **laboratory system configurations** and **IT infrastructure specifications**, supporting site teams on requirements generation and working cross-functionally with ELM colleagues to deliver IT elements of QC lab projects on schedule.
- Deployed and configured **Windows 10/11 and Windows Server-based** laboratory systems supporting quality control operations; executed **end-user training programs** and system content deployment resulting in **95% first-contact resolution** and reduced support escalations by **40%**.
- Provided production-level **QC laboratory system support** and incident management for pharmaceutical manufacturing environments, diagnosing and resolving system reliability issues with strong **problem-solving** skills and **excellent communication** with cross-functional laboratory and operations teams.
- Developed **Microsoft Windows Operating System** automation scripts and troubleshooting procedures for laboratory infrastructure; documented **user guides and training materials** in Confluence to support self-service problem resolution and reduce mean time to resolution by **35%**.
- Collaborated with Quality Control domain stakeholders, regulatory teams, and IT leadership on pharmaceutical system governance; demonstrated **high integrity** and **excellent organizational skills** in managing concurrent UAT coordination, post-go-live support, and ad-hoc operational requests with **100% priority accuracy**.

SKILLS

Laboratory & QC Systems Support – QC laboratory system support, pharmaceutical production environments, 21 CFR Part 11 compliance, data integrity guidelines, IOQ test protocols, laboratory system configuration.

Operating Systems & Infrastructure – Microsoft Windows 10, Windows 11, Windows Server operating systems, system deployment, infrastructure troubleshooting, automation scripting.

Quality & Compliance – risk assessments, change-control management, regulatory compliance, quality control governance, audit trails, post-implementation support.

Documentation & Training – technical documentation authoring and review, user guides, training materials, end-user training program development, cross-functional communication.

Problem-Solving & Operations – incident management, system reliability, troubleshooting, production support, cross-functional collaboration, organizational prioritization.

Business Systems & Integration – ERP system support, enterprise business system integrations, REST APIs, PostgreSQL, MySQL, Oracle, system interconnections, UAT coordination.

IT Project Support – capital project delivery, requirements generation, specifications development, system deployment, go-live support, ad-hoc operational tasks.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Pharmaceutical QC Laboratory System Compliance & Deployment Framework (HCL Technologies)

- Architected end-to-end **21 CFR Part 11 compliant** laboratory system deployment framework supporting 6 pharmaceutical quality control capital projects; authored 45+ regulatory-grade documents including **IOQ test protocols**, configuration specifications, and data integrity guidelines with **zero audit findings**.
- Conducted comprehensive **risk assessments** and change-control evaluations across **Windows Server** and laboratory IT infrastructure; collaborated with ELM team colleagues and site operations to generate requirements and validate system configurations, reducing deployment risk by **50%** and improving change-management efficiency by **60%**.
- Delivered integrated **end-user training programs** and system content deployment across 120+ QC laboratory personnel; developed comprehensive **user guides and training materials** spanning Windows operating system procedures, laboratory system workflows, and troubleshooting playbooks, achieving **92% training completion** and **45% reduction** in post-go-live support tickets.
- Engineered **Windows 10/11 and Windows Server** automation and configuration management procedures for pharmaceutical laboratory environments; implemented system reliability monitoring and incident response protocols, reducing mean time to resolution by **38%** and ensuring **99.5% system availability** during critical production periods.
- Established cross-functional governance structures with Quality Control, regulatory, and IT leadership; demonstrated **excellent organizational and prioritization skills** managing concurrent UAT coordination, post-implementation support, and ad-hoc operational requests with **100% on-time delivery** and stakeholder satisfaction scores of **9.2/10**.

Enterprise Laboratory System Integration & Quality Documentation Program (HCL Technologies)

- Led **requirements generation** and **configuration of specifications** for interconnected laboratory systems integrating with enterprise ERP platforms; utilized **REST APIs** and database-level data flows to ensure seamless system interoperability, supporting 3 concurrent capital projects with **zero data integrity incidents**.
- Authored 60+ quality-assurance documents including **IOQ test protocols**, system specifications, and compliance checklists aligned with pharmaceutical regulatory standards; reviewed and approved documentation with pharmaceutical domain subject-matter experts, achieving **100% first-pass audit compliance**.
- Executed **end-user training and system deployment** covering **Windows Server infrastructure** administration and laboratory application operations; built self-service knowledge bases in enterprise wiki platforms, reducing helpdesk dependency by **42%** and enabling **95% of users** to resolve issues independently.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
