PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Reviewed and assessed data accuracy against client policies and platform requirements using **SQL** and **Python** data validation scripts; processed **500+ daily records** with **99.2% accuracy rate** in HCL banking operations environment, ensuring compliance with financial regulatory standards.
- Engaged with business stakeholders and clients via outbound communication and **cross-functional collaboration** to verify information, update enterprise platforms, and resolve data discrepancies; supported **40+ business entities** with **98% first-contact resolution** rate in production support capacity.
- Adhered to all **compliance requirements** and audit-trail protocols in regulated financial services production environments; demonstrated mastery of **GDPR**, **data protection**, and **regulatory reporting** standards across **SWIFT messaging** and payments-operations platforms supporting banking clients.
- Responded to customer requests and operational incidents with **problem-solving** and **judgment** in dynamic, fast-paced production environments; managed **P1/P2 incident response** using **Splunk**, **CloudWatch**, and **Dynatrace** monitoring tools to maintain **SLA compliance** and system reliability.
- Demonstrated adaptability and flexibility in managing repetitive, detail-oriented tasks across multiple customer datasets; performed **ad-hoc SQL queries**, **schema changes**, and **data validation** on **PostgreSQL**, **MySQL**, and **Oracle** databases while maintaining **attention to detail** in high-volume transaction environments.
- Communicated findings and data review results with excellent verbal and written communication skills; created operational reports, documentation, and stakeholder summaries using **Confluence**, **Jira ticketing**, and **Python automation scripts** to track resolution progress across **100+ monthly requests**.

SKILLS

Data Review & Compliance – Data accuracy assessment, policy compliance verification, regulatory standards adherence, GDPR, audit-trail management, financial services compliance.

Customer Engagement & Communication – Outbound communication, stakeholder management, verbal and written communication, problem-solving, judgment-based decision making, customer request handling.

Data Tools & Technologies – SQL (PostgreSQL, MySQL, Oracle), Python, Splunk, CloudWatch, Dynatrace, Confluence, Jira, ad-hoc query development, data validation scripting.

Business Systems & Domain – Banking and financial services operations, SWIFT messaging (MT/MX), payments processing, ISO 20022, SEPA, cross-border payments, ERP systems, enterprise integrations.

Work Environment Competencies – Adaptability, flexibility, attention to detail, focus on repetitive tasks, dynamic fast-paced environments, SLA management, incident response, change management.

Additional Technical Skills – Linux, Git, Jenkins CI/CD, Spring Boot, REST APIs, AWS (EC2, S3, Lambda), Docker, power BI, data modelling.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Multi-Region Financial Data Moderation & Compliance Platform (HCL Technologies)

- Designed and deployed a **data review and moderation pipeline** supporting **15 international banking clients** across EMEA region; ingested **50,000+ daily financial records** from payment operations systems and performed **policy compliance assessments** using **Python** validation rules and **SQL** data profiling against client-specific business rules.
- Implemented **automated accuracy checking workflows** leveraging **Jira ticketing** and **Confluence documentation** to track data verification outcomes; achieved **97.8% data accuracy** and reduced manual review time by **35%** through intelligent sampling and rule-based pre-screening.
- Established **compliance and audit-trail logging** across all data review activities using **CloudWatch** and **Splunk** operational dashboards; ensured **100% GDPR** and **financial regulatory compliance** with immutable audit records for **12-month regulatory reporting** cycles.
- Built outbound **customer engagement workflow** integrating **REST APIs** with enterprise ERP platforms; enabled **automated business verification calls** and platform updates for **200+ monthly customer accounts**, reducing data refresh cycle from **7 days to 2 days**.
- Orchestrated cross-functional coordination between internal compliance teams and business stakeholders; documented **25+ policy interpretation guides** in Confluence and delivered **quarterly training to 8 team members**, ensuring consistent judgment and decision-making across **99%+ policy adherence rate**.

SWIFT Payment Operations Dashboard with Real-Time Data Verification (HCL Technologies)

- Monitored and reviewed **SWIFT message flows** (MT/MX formats) across **ISO 20022** payment operations infrastructure; verified message accuracy and **SEPA compliance** for **10,000+ daily transactions** with **zero critical discrepancies** over **18-month production period**.
- Engaged with banking domain business analysts and operations teams to assess transaction data against client policies; resolved **95+ monthly data quality issues** through root-cause analysis and coordinated platform updates, maintaining **99.9% SLA uptime** for payments-operations dashboard.
- Implemented **Python automation scripts** for recurring data validation tasks across **PostgreSQL** payment ledgers; reduced manual review overhead by **40%** and improved decision velocity for **P1 incident response** from **45 minutes to 12 minutes** average resolution time.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
