PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Reviewed and assessed data accuracy against client compliance policies and regulatory requirements using **systematic verification workflows**, identifying and escalating **98% of policy violations** within SLA across high-volume content datasets.
- Engaged with business stakeholders via **outbound phone calls and written communication** to verify information, collect country-specific details, and update client platforms, managing **150+ daily interactions** with **95% first-contact resolution**.
- Adhered to strict **compliance and regulatory standards** including **GDPR data protection, audit trail requirements**, and **financial-services regulatory frameworks** developed during **3.5 years in banking and fintech environments**.
- Operated effectively in **dynamic, fast-paced environments** using **Jira ticketing, customer case management platforms, and operational dashboards** to prioritize repetitive data review tasks, achieving **25% efficiency gain** through process optimization and attention to detail.
- Applied **problem-solving and judgement** to triage complex data discrepancies across **ERP systems, banking transaction flows, and multi-country business platforms**, collaborating with cross-functional teams to resolve **P1/P2 escalations within 4 hours**.
- Demonstrated **adaptability and flexibility** across multilingual, multicultural team environments while supporting **leading technology platforms**, drawing on **IELTS Academic Band 7 fluency** and experience with **country-specific operational knowledge** across SEPA, cross-border payment contexts, and international compliance regimes.

SKILLS

Data Review & Compliance – policy accuracy assessment, regulatory compliance validation, GDPR adherence, audit trail management, data quality assurance.

Customer Engagement & Communication – outbound phone communication, verbal and written clarity, stakeholder verification, information gathering, customer case management.

Business Systems & Platforms – Jira ticketing, ERP system navigation, customer platform updates, change management workflows, business process documentation.

Country & Domain Knowledge – SEPA payments, cross-border transaction flows, ISO 20022 message standards, banking operations, financial-services regulatory frameworks, multilingual support.

Professional Competencies – attention to detail, problem-solving, adaptability, fast-paced environment management, repetitive task focus, computer fluency, IELTS Academic Band 7.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Data Accuracy & Compliance Review Platform for Multinational Tech Client (HCL Technologies)

- Designed and executed **systematic data review and verification workflows** for a leading online multinational technology platform, reviewing **5,000+ records monthly** to assess accuracy against **client-defined policies and regulatory compliance standards** including **GDPR, audit trail requirements, and country-specific data protection regimes**.
- Conducted **outbound phone verification campaigns** to validate business information and user data, communicating **policy violations and required platform updates** with **92% stakeholder satisfaction** and achieving **88% same-call resolution rate** through clear verbal communication and problem-solving.
- Implemented **Jira-based case management and escalation workflows** to track data discrepancies and compliance gaps, prioritizing **high-risk violations** and reducing time-to-remediation by **30%** while maintaining **100% regulatory audit compliance**.
- Operated in **dynamic, multilingual, fast-paced team environment** supporting **1 billion+ users globally**, demonstrating **adaptability and flexibility** across **country-specific operational requirements** (SEPA, cross-border payment contexts, international tax and data residency rules) and **repetitive, detail-oriented review tasks**.
- Collaborated with **internal teams, business stakeholders, and compliance officers** to refine data review policies, update platform validation rules, and establish **SLA-based escalation procedures**, resulting in **15% reduction in policy violation recurrence** and improved business process clarity.

Banking Payments Operations & Regulatory Compliance Dashboard (HCL Technologies)

- Supported and monitored **SWIFT messaging (MT/MX format) and payments processing flows** for a major banking client, assessing **transaction accuracy and regulatory compliance** across **ISO 20022 message standards, SEPA instant payments, and cross-border payment workflows** with **99.8% data accuracy**.
- Engaged with banking operations teams and compliance officers to verify transaction details, escalate regulatory violations, and update **ERP system records**, ensuring **100% audit trail completeness** and **GDPR/data protection adherence** across **15+ payment corridors**.
- Applied **attention to detail and problem-solving** to identify and triage discrepancies in payment reconciliation workflows, reducing **compliance exception backlog by 40%** through systematic review and cross-functional escalation within **SLA windows**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
