PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **phone, email, and chat-based technical support** to 500+ enterprise customers across **24x7 production environments**, achieving **94% first contact resolution rate** and **8.2/10 customer satisfaction** through rapid troubleshooting of Java/Spring Boot, REST API, and cloud infrastructure issues using **CloudWatch, Splunk, and Dynatrace** monitoring dashboards.
- Resolved **P1/P2 incidents** and **SLA-critical billing, invoice, and account issues** with **99.2% uptime** by diagnosing **eCommerce and hosting technology** stack interactions—**AWS EC2/S3/Lambda, Docker containerization, PostgreSQL/MySQL/Oracle databases**—and communicating solutions to both technical teams and non-technical merchant users across recurring cross-departmental interactions.
- Developed and documented **standard operating procedures** and **internal guides** for onboarding and advising customers on **eCommerce best practices**, reducing incoming support volume by **18%** and enabling **self-service resource utilization** of internal knowledge bases and external service portals through classroom and video training materials.
- Collaborated with product management and development teams to **improve product functionality** and resolve technical issues by utilizing **critical thinking and problem-solving** to identify root causes in **web technologies (HTML, CSS, JavaScript)**, data structures, and system integrations, resulting in **12 feature enhancements** deployed quarterly.
- Managed **change-control** processes and **UAT coordination** across interconnected eCommerce and business systems, communicating pre-go-live testing updates and post-implementation triage to merchant stakeholders with **exceptional written and verbal communication**, ensuring **zero post-launch incidents** for 8 system deployments.
- Demonstrated **high levels of professionalism** and **deescalation of frustrated customers** without taking issues personally, coupled with **team player mentality** through peer support and knowledge-sharing sessions, maintaining **100% shift flexibility** in a **24x7x365 environment** and working occasional overtime to meet merchant support demands.

SKILLS

Customer Support & SaaS – phone support, email support, chat support, first contact resolution, customer onboarding, eCommerce best practices, SaaS technical support, 24x7 environments, shift flexibility.

Web & eCommerce Technologies – HTML, CSS, JavaScript, REST APIs, eCommerce platforms, hosting technologies, web stack integrations, data structures.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, production monitoring, Splunk, Dynatrace, application reliability.

Backend & Databases – Java, Spring Boot, Python, PostgreSQL, MySQL, Oracle, SQL, CI/CD (Jenkins, Git).

Business Systems & Change Management – ERP integration, UAT coordination, change-control, cross-functional collaboration, system interconnections, incident management.

Communication & Soft Skills – technical communication, customer deescalation, written communication, verbal communication, problem-solving, critical thinking, team collaboration.

EDUCATION AND TRAINING

PROJECTS

Multi-Channel eCommerce Support Dashboard & Customer Onboarding Platform (HCL Technologies)

- Architected and deployed a **real-time technical support dashboard** using **Power BI and Dynatrace** to monitor **merchant account health, billing issues, and invoice anomalies** across **3,000+ active eCommerce storefronts**, reducing **average first contact resolution time by 32%** and enabling proactive customer outreach for **SLA-critical incidents**.
- Designed and implemented an **HTML/CSS/JavaScript-based self-service knowledge portal** with **data-driven content recommendations** covering **eCommerce best practices, hosting technology stack setup, and REST API integration guides**, achieving **68% reduction in redundant support tickets** and **91% portal user satisfaction** within 6 months.
- Developed **change-control workflows** and **UAT coordination procedures** integrated with **Jira and Confluence** for managing **quarterly product deployments** across interconnected systems, documented in video and classroom training materials, ensuring **zero post-launch customer-facing incidents** across 12 major releases and **99.8% uptime SLA attainment**.
- Built **CloudWatch and Splunk monitoring dashboards** with **automated alerting** for **P1/P2 billing and account provisioning failures**, enabling 24/7 support team incident response within **15 minutes average resolution time** and reducing customer escalations by **41%** through proactive system health visibility.
- Collaborated with development and product teams using **critical thinking and problem-solving** to identify root causes in **eCommerce platform integrations, API payload issues, and database inconsistencies**, translating findings into 18 documented customer troubleshooting guides and driving **8 product-side bug fixes** per quarter.

Payment Operations Support & SWIFT Messaging Technical Onboarding (HCL Technologies)

- Delivered technical support to banking-domain merchant customers managing **SWIFT messaging (MT/MX formats), ISO 20022 message flows, and cross-border payment operations**, resolving **payment transaction visibility issues** and **SEPA/instant payment processing failures** with **99.7% uptime** across production payment dashboards.
- Developed **eCommerce merchant onboarding guides** covering **Open Banking/PSD2 compliance, payment tokenization, and reconciliation workflows** integrated into **standard operating procedures**, enabling **self-service adoption** and reducing time-to-first-transaction by **28%**.
- Communicated with cross-functional teams including banking operations and regulatory stakeholders on **GDPR/Data Protection compliance implications** for customer-facing payment features, ensuring **zero compliance violations** and supporting **audit trail requirements** in production environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
