PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported **Supplier Quality Engineering** activities including **Change Orders, NCEs, NCMRs, SCAR, and CAPA investigations** across enterprise manufacturing systems; performed root-cause analysis and cross-functional disposition assessments using **Oracle** and **Agile** databases, reducing non-conformance cycle time by **35%**.
- Collected and validated **manufacturing and inspection data** through **routine line audits** and quality investigations; maintained **quality procedures, protocols, and methods** documentation with **100% compliance** to **GMP, GLP, ISO** standards and regulatory frameworks, enabling safe global product distribution.
- Provided day-to-day **quality support on the manufacturing floor** assisting production and inspection teams with **methods, processes, specifications, and quality issues**; interpreted drawings and specifications using inspection tools and **Microsoft Office**, supporting **Six Sigma** and process improvement initiatives with **18 process optimizations** completed.
- Demonstrated **strong documentation practices** and **attention to detail** through systematic data logging and quality event management; interfaced with external suppliers, internal manufacturing, engineering, regulatory, quality, materials, and operations personnel to ensure **compliance with internal quality systems and external regulations** including **ISO 20022, GMP, GLP**, and data protection standards.
- Led quality and **process improvement initiatives** identifying root causes of non-conformities and contributing corrective actions; communicated quality, safety, health, and environmental concerns to senior management with documented evidence and recommended solutions, driving **3 major process redesigns** and **zero regulatory deviations**.
- Demonstrated **independent working ability** and sound decision-making in a fast-paced manufacturing environment; trained junior quality staff on inspection methods, compliance procedures, and regulatory requirements; supported **UAT, post-implementation triage, and change-control management** across interconnected quality and manufacturing systems.

SKILLS

Quality Systems & Regulations – GMP, GLP, ISO standards, Six Sigma, Change Orders, NCE, NCMR, SCAR, CAPA investigations.

Quality & Manufacturing Support – Supplier Quality Engineering, line audits, non-conforming material assessment, inspection data collection, process improvement, drawing interpretation, inspection tools.

Enterprise Systems & Databases – Oracle, Agile, Microsoft Office, database applications, quality documentation systems.

Manufacturing & Process Methods – Manufacturing floor operations, quality procedures, methods documentation, specifications compliance, production support, UAT coordination.

Cross-Functional Collaboration – Supplier management, internal manufacturing liaison, regulatory engagement, quality investigations, change-control management, team training, senior management reporting.

Data & Documentation – Data collection and validation, systematic documentation, attention to detail, quality event logging, compliance reporting.

Soft Skills & Environment – Problem-solving, decision-making, independent work, fast-paced environment adaptability, shifting priorities, team environment effectiveness, articulate communication.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin	02/2026
BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India	01/2021

PROJECTS

Medical Device Quality System Audit & Non-Conformance Management Platform (HCL Technologies)

- Architected and deployed an integrated **quality investigations and CAPA management system** using **Oracle** and **Agile** databases to centralize **Change Orders, NCEs, NCMRs, SCAR tracking, and corrective action workflows** across multiple manufacturing sites; reduced non-conformance investigation cycle time from 45 days to **28 days (38% improvement)**.
- Designed **routine line audit protocols** and automated data collection workflows to validate **GMP, GLP, and ISO compliance** across production facilities; implemented **Microsoft Office–integrated dashboards** for real-time quality event tracking and regulatory reporting, achieving **100% audit compliance** across **12 manufacturing lines**.
- Led cross-functional quality investigations with suppliers, manufacturing teams, regulatory personnel, and operations; documented root causes, disposition rationale, and corrective actions with full regulatory traceability; supported **3 major process redesigns** that eliminated repeat non-conformances and reduced defect rates by **42%**.
- Developed inspection methods and **drawing interpretation guides** for manufacturing floor teams; trained **24 junior quality staff** on **inspection tools, specifications compliance, and GMP/GLP procedures**, reducing inspection discrepancies by **31%** and enabling faster UAT and change-control deployment.

Regulatory Compliance & Quality Documentation Management System (HCL Technologies)

- Established centralised **quality procedures and methods documentation** repository with version control and compliance audit trails; ensured all **quality procedures, protocols, and methods** aligned with **GMP, GLP, ISO standards** and internal policy, achieving **zero regulatory deviations** during external audits.
- Performed systematic **routine line audits** and quality system effectiveness reviews; identified and communicated **quality, safety, health, and environmental concerns** to senior management with documented evidence and corrective action recommendations, resulting in **18 process improvements** and **35% reduction in non-conformance incidents**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
