PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed, developed and maintained **PL/SQL procedures, packages and database objects** supporting enterprise Java/.NET applications in production; optimised query performance across **PostgreSQL, MySQL, Oracle** schemas, reducing transaction latency by **18%** and enabling **P1/P2 incident resolution** within SLA targets.
- Developed **Oracle Forms and custom components** integrated with REST APIs for cross-system data flows; built **Oracle BI Publisher reports and extracts** for Finance and HR operational dashboards, automating month-end reconciliation workflows and reducing manual data-entry overhead by **35%**.
- Translated business and functional requirements into structured technical specifications and technical designs; collaborated with Business Analysts, functional stakeholders and operations teams across **Finance and HR modules** to define feature scope, acceptance criteria and integration touchpoints, supporting **UAT coordination and post-implementation triage**.
- Supported technical integrations and enhancements between **Oracle EBS and internal enterprise systems** (ERP modules, operational platforms) using **REST APIs and database-level data flows**; managed change-control and configuration updates across interconnected systems, ensuring audit trails and regulatory compliance in production environments.
- Investigated and resolved technical issues in live production environments; participated in **upgrade and enhancement initiatives** including **R12 activities and payroll-related changes**; contributed to testing, defect resolution and performance optimisation; liaised with Oracle Support for SR logging and escalation management.
- Supported production systems and monitoring using **Splunk and CloudWatch** for alerting and SLA management; performed **controlled releases and planned out-of-hours activities**; maintained clear written and verbal communication across **cross-functional teams** for incident triage, change management and ongoing platform stability.

SKILLS

Oracle E-Business Suite Development – PL/SQL (procedures, packages, database objects), Oracle Forms, Oracle BI Publisher (XML Publisher), custom reports and extracts.

Database & Data Engineering – Oracle, PostgreSQL, MySQL, SQL query optimisation, schema design, data modelling, ETL and data utilities.

Enterprise Integrations & Architecture – REST APIs, ERP module integrations, cross-system data flows, technical design translation, change-control management.

Production Support & DevOps – Live production environment support, Splunk, CloudWatch, SLA management, incident response, release management, Jenkins CI/CD, Git.

Finance & HR Domain Expertise – Oracle EBS Finance and HR modules, payroll processes, R12 upgrade knowledge, reconciliation workflows, regulatory compliance and audit-trail management.

BI & Reporting – Oracle BI Publisher, Power BI, Tableau, DAX measures, data visualisation, operational dashboards.

Communication & Collaboration – Requirements gathering, functional specification writing, stakeholder management, Business Analyst liaison, UAT support, documentation.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Oracle EBS Finance Integration & Reporting Upgrade Platform (HCL Technologies)

- Designed and developed a comprehensive **PL/SQL-based integration framework** connecting **Oracle EBS Finance modules** with legacy ERP systems; built **10+ custom packages and procedures** handling month-end close operations, automated reconciliation and GL posting validation across **Oracle, PostgreSQL and MySQL** data sources.
- Architected and built **Oracle BI Publisher reports and XML-based extracts** replacing manual spreadsheet-driven reporting; created **5 executive Finance dashboards** delivering real-time GL balance visibility, variance analysis and fund-flow reporting; reduced month-end close cycle time by **42%** and eliminated **~30 hours** of manual data consolidation per month.
- Developed **Oracle Forms custom components** for GL hierarchy navigation and drill-down analysis; integrated Forms with **REST APIs** to surface GL data from interconnected systems; supported **UAT coordination and post-implementation triage** with Finance stakeholders across **3 go-live phases**.
- Led **R12 upgrade readiness activities** including PL/SQL code migration, Forms modernisation and BI Publisher template refactoring; performed **performance optimisation** on legacy SQL, reducing report execution time by **55%** and enabling on-demand dashboard refresh cycles.
- Managed technical change-control and release processes; liaised with **Oracle Support** for **SR logging and escalation** of R12 compatibility issues; performed **controlled releases and planned out-of-hours activities** to deploy **12+ enhancements** with zero production downtime over **9 months**.

SWIFT Payments Operations Dashboard & ISO 20022 Compliance Suite (HCL Technologies)

- Built and maintained a **production-support monitoring dashboard** for **SWIFT MT/MX message flows** supporting a banking client's cross-border payments operations; integrated **Splunk** for real-time transaction-flow visibility, operational alerting and **SLA management** across payment-message processing pipelines.
- Designed **PL/SQL-based data utilities and ETL procedures** ingesting **ISO 20022 message structures** and **SEPA instant-payment metadata**; built **Oracle BI Publisher reports** for reconciliation-workflow auditing, tokenization-flow tracking and **regulatory compliance reporting (GDPR, Data Protection)** enabling post-transaction audit trails.
- Translated functional requirements from banking-domain Business Analysts into **structured technical specifications**; supported **cross-functional collaboration** with operations teams and regulatory stakeholders on **PSD2 / Open Banking compliance enhancements**, resulting in **zero audit gaps** across **2 regulatory inspections**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
