PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Administered **Active Directory** account provisioning, deprovisioning, and group policy management for 200+ enterprise users across production banking and ERP environments; coordinated device rollout and endpoint configuration using **Windows Client and Server Operating Systems** to achieve **99.2% first-time deployment success**.
- Supported **Azure AD / Microsoft Entra ID** and **O365 / M365 Administration** across interconnected business systems, managing user licenses, mailbox configuration, Teams collaboration spaces, and security compliance; reduced onboarding time by **35%** through documented account administration workflows.
- Resolved end-user incidents and service requests via **ITIL processes** and **service desk tools** (ticketing system integration with Jira/Confluence), achieving **4-hour average resolution time** for critical issues; conducted root-cause analysis on recurring AV and meeting room solutions support tickets to drive preventative improvements.
- Performed **endpoint patching**, vulnerability assessment, and **Windows Server** maintenance across 150+ devices in production; managed change-control workflows for system updates and configuration changes, ensuring zero downtime during monthly patch cycles through coordinated UAT and post-implementation validation.
- Provided **basic network troubleshooting** and application diagnostics using **Linux** log analysis and diagnostic tools; supported **Microsoft Office applications** troubleshooting and documented solutions in internal knowledge bases, enabling tier-1 helpdesk team to resolve **60%** of repeat issues independently.
- Demonstrated flexibility and collaborative problem-solving by supporting key IT initiatives and occasional critical service desk coverage outside standard Monday–Friday hours; built training materials and user guides for new technology rollouts, reducing support ticket volume by **28%** during organizational system transitions.

SKILLS

Active Directory & Identity Management – Active Directory account administration, Azure AD, Microsoft Entra ID, user provisioning, group policy, account lifecycle management.

Microsoft Technologies – O365, M365 Administration, Exchange Online, Microsoft Teams, SharePoint, Windows Client Operating Systems, Windows Server Operating Systems, Microsoft Office applications.

Service Desk & ITIL – ITIL processes, service desk tools, ticketing systems, incident management, change management, UAT coordination, post-implementation support.

IT Infrastructure & Support – Endpoint patching, AV and meeting room solutions support, basic network troubleshooting, Windows Server maintenance, device rollout and configuration, compliance and audit trails.

Enterprise Systems & Integration – ERP system support, REST API integrations, cross-system data flows, PostgreSQL, MySQL, Oracle, Linux, Git, shell scripting, Jenkins.

Monitoring, Analytics & Documentation – Splunk, CloudWatch, Dynatrace, Power BI dashboards, incident alerting, knowledge base documentation, user guides, training materials.

Languages & Certifications – Python, Java, SQL, IELTS Academic Band 7, Full Stack Java Spring Boot & Angular certification.

EDUCATION AND TRAINING

PROJECTS

Enterprise Service Desk Automation & Endpoint Management Platform (HCL Technologies)

- Designed and deployed an **Active Directory account administration** automation framework using **Python scripting** and **Windows PowerShell**, integrating with **Azure AD / Microsoft Entra ID** to reduce manual provisioning time from 2 hours to **12 minutes per user** across 300+ annual onboardings.
- Built end-to-end **device rollout and configuration** pipeline leveraging **Windows Client and Server Operating Systems** imaging, **O365 / M365 Administration** pre-staging, and automated health-check validation; achieved **99.5% first-time deployment success rate** and reduced device-ready time by **40%**.
- Integrated **service desk tools** (Jira ticketing system) with **ITIL processes** and incident management workflows; configured automated routing and SLA alerts for **endpoint patching** and critical system updates, enabling **100% on-time monthly patch deployment** across 200+ endpoints with zero business disruption.
- Implemented **basic network troubleshooting** diagnostic dashboards in **Power BI** to correlate **Windows Server** event logs, application health metrics, and **Microsoft Office applications** crash data; reduced mean-time-to-resolution (MTTR) by **32%** for connectivity and application issues.
- Delivered comprehensive user training materials and documentation for AV and meeting room solutions support, reducing repeat-call volume by **45%**; established self-service knowledge base reducing tier-1 helpdesk escalations by **38%** within 6 months.

Banking Payments Operations Dashboard & SWIFT Message Monitoring (HCL Technologies)

- Supported production **service desk** operations for a major banking client's SWIFT messaging and payments dashboard, managing critical SLA incidents with **99.8% uptime** across transaction-flow visibility and operational alerting systems; coordinated **change management** and post-implementation triage for ISO 20022 message format migrations.
- Collaborated cross-functionally with banking-domain business analysts and operations teams to gather requirements for regulatory compliance features (GDPR, data protection, audit trails); documented **ITIL processes** for payment reconciliation workflows and tokenization support, ensuring **100% audit trail completeness** for compliance reviews.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
