PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided **hardware and software support** for enterprise desktops, laptops, and peripherals across 500+ user base at HCL Technologies, resolving **support requests** with **95% first-contact resolution rate** prior to escalation through incident logging systems.
- Ensured all **desktops and laptops were patched to the highest available level** using **automated deployment pipelines** and **Jenkins CI/CD**, reducing security vulnerability exposure by **40%** and maintaining **100% compliance** with enterprise patch management schedules.
- Implemented and modified **existing applications based on users' needs and business requirements** across **Java Spring Boot, REST APIs, and enterprise ERP systems**, coordinating **UAT support** and **post-go-live triage** for 15+ cross-functional business stakeholder groups.
- Updated all **user queries through the incident logging system** using **Jira ticketing and defect tracking**, maintained SLA compliance at **98%**, and conducted **follow-ups with users to confirm their needs have been met**, achieving **92% satisfaction rating**.
- Built and deployed new **PCs and laptops** with standardized configurations, **MS Office support**, and enterprise security policies; imaged **150+ machines** annually with zero configuration drift using **Docker containerization** and **Linux shell scripting**.
- Supported **enterprise business systems** and **ERP integrations** for banking operations, managing **change-control processes** and system configuration updates across interconnected **PostgreSQL, MySQL, and Oracle** databases, ensuring zero unplanned downtime during 12+ major releases.

SKILLS

Hardware & Desktop Support – PC build & deployment, laptop provisioning, printer support, hardware troubleshooting, peripherals configuration.

Software Support & Patching – MS Office (Word, Excel, PowerPoint, Outlook), application deployment, patch management, Windows updates, security compliance.

Incident Management & Ticketing – Jira incident logging, defect tracking, SLA management, priority classification, user follow-up, resolution documentation.

Enterprise Systems & ERP – ERP system support, business-system integrations, change-control management, UAT coordination, multi-system configuration.

IT Infrastructure & Scripting – Linux administration, shell scripting, Docker containerization, Git version control, Jenkins CI/CD pipelines, PostgreSQL, MySQL, Oracle.

Technical Communication – Problem-solving, user support, cross-functional collaboration, incident resolution, technical documentation.

Cloud & Monitoring – AWS (EC2, S3, Lambda, CloudWatch), Splunk monitoring, Dynatrace dashboards, infrastructure maintenance.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Enterprise Desktop & Laptop Support Standardization Platform (HCL Technologies)

- Designed and deployed a **standardized PC and laptop build automation framework** using **Docker containerization** and **shell scripting**, reducing new-machine provisioning time from **4 hours to 45 minutes** and eliminating configuration drift across **500+ enterprise endpoints**.
- Implemented **centralized patch management and security compliance** via **Jenkins CI/CD pipelines** and **automated Windows update deployment**, achieving **100% patch compliance** within **48 hours** of release and reducing security incidents by **35%**.
- Built **MS Office standardized image** with role-based configurations (Word, Excel, PowerPoint, Outlook) and integrated **Jira incident logging automation** to track all **hardware and software support requests**, reducing ticket resolution time by **28%** and improving **user satisfaction to 93%**.
- Orchestrated **change-control management** for **15+ system updates** across interconnected **ERP and enterprise business systems**, conducting **UAT coordination** and **post-go-live support**, achieving **zero unplanned downtime** during rollouts and maintaining **98% SLA compliance**.

Production Support & Monitoring Dashboard for Enterprise Applications (HCL Technologies)

- Provided **production support and monitoring** of enterprise **Java Spring Boot** and **.NET applications** using **Splunk, CloudWatch, and Dynatrace**, managing **P1/P2 incident response** and maintaining **99.5% uptime SLA** across critical banking and ERP systems.
- Resolved **support requests** with **95% first-contact resolution rate**, conducted **follow-ups with users to confirm their needs have been met**, and documented all **incident logging** through **Jira ticketing systems**, reducing escalation volume by **32%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
