PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **first-level and second-level ICT helpdesk support** across enterprise environments at HCL, handling **phone, email, and remote desktop** incident logging and resolution for 500+ concurrent users, reducing average ticket resolution time by **35%** through structured escalation protocols and knowledge base documentation.
- Configured, installed, and deployed **Windows 11 devices, Microsoft 365 environments, mobile devices (iOS and Android), and peripherals** with end-user briefing and handover sessions, ensuring **99.2% first-contact resolution rate** for device setup and software provisioning across multiple Dublin and regional sites.
- Provided on-site **deskside support** and user-facing technical assistance in fast-paced office environments, diagnosing hardware and software faults, performing device troubleshooting, and conducting hardware refreshes with **zero unplanned downtime** for critical business operations.
- Managed **smart device configuration** including iOS and Android platform setup, mobile device management (MDM) enrollment, and network connectivity troubleshooting, supporting **1,000+ staff** across hybrid work infrastructure.
- Escalated **complex technical issues** to senior support teams and external service providers using structured incident management frameworks, maintaining SLA compliance and change-control documentation for system updates and configuration changes across interconnected enterprise platforms.
- Documented user guides, training materials, and onboarding procedures for **Windows 11, Microsoft 365, and browser-based business systems**, enabling self-service support and reducing repeat incidents by **28%** across the 1,000+ user estate.

SKILLS

IT Helpdesk & Support – First-level support, second-level support, incident logging, phone/email/remote desktop support, deskside assistance, escalation management, SLA management, fast-paced user-facing environments.

Operating Systems & Devices – Windows 11, Windows OS, laptop configuration, mobile device setup, iOS, Android, peripherals, hardware installation.

Microsoft Ecosystem – Microsoft 365, Office 365, cloud integration, browser-based business systems.

Device Management & Provisioning – Device configuration, hardware deployment, software installation, mobile device management (MDM), user handover and briefing.

Enterprise IT & Change Management – Change-control protocols, system updates, UAT coordination, post-implementation support, cross-functional helpdesk operations.

Professional Skills – English language proficiency (IELTS Band 7), user communication, troubleshooting, problem-solving, documentation, knowledge management.

Additional Technical Background – Linux, Python scripting, SQL, AWS, Docker, Jenkins, Jira, Git, data analytics, Power BI, Tableau.

EDUCATION AND TRAINING

PROJECTS

Enterprise ICT Helpdesk Service Consolidation & Windows 11 Migration (HCL Technologies)

- Led **first-level and second-level support escalation workflows** for a managed helpdesk service supporting **1,000+ staff** across Dublin and regional sites, implementing structured **incident logging and ticket management** protocols that improved mean time to resolution (MTTR) by **40%**.
- Orchestrated **Windows 11 device provisioning, Microsoft 365 configuration, and mobile device (iOS/Android) setup** across 500+ concurrent users, delivering hands-on **deskside support** and user briefing sessions with **99.2% first-contact resolution rate** for hardware and software faults.
- Designed and executed **change-control procedures** for system configuration updates and software deployments, coordinating UAT, post-go-live support, and escalation pathways to senior technical teams and external service providers, achieving **zero unplanned downtime** during rollouts.
- Created comprehensive **user guides, training materials, and onboarding documentation** for **Windows 11, Microsoft 365, and browser-based business systems**, reducing repeat support incidents by **28%** and enabling self-service resolution across the multi-site helpdesk estate.

Banking SWIFT Payments Operations Dashboard & Production Support (HCL Technologies)

- Delivered **production support and real-time monitoring** of a SWIFT messaging dashboard serving a major banking client, using **Splunk, CloudWatch, and Dynatrace** to maintain SLA compliance and ensure **99.97% availability** for payment-operations transactions.
- Managed **P1/P2 incident response** for SWIFT MT/MX message processing, ISO 20022 transaction flows, and cross-border payment operations, providing escalation support and incident triage with root-cause analysis documentation for financial regulatory compliance and audit trails.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
