PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed sample lifecycle operations across laboratory environments, including internal sample movement, external shipment coordination, complex sample pulls, aliquoting activities, and **reference material inventory management**, ensuring **100% compliance with GMP and data integrity standards** during enterprise system transitions at HCL.
- Administered all **sample-related documentation** and **LIMS data entry**, processing external sample results with **99.8% accuracy** and maintained complete audit trails for **regulatory compliance (GDPR, cGMP)** across interconnected laboratory information systems using **SQL (PostgreSQL, MySQL, Oracle)**.
- Generated **environmental monitoring and water analysis reports** using **Power BI dashboards and DAX measures**, delivering agreed **quality and business metrics** to laboratory leadership and identifying **process improvement opportunities** that reduced sample-processing cycle time by **18%**.
- Responded to **ad-hoc sample pulls and sample-related information requests** with **sub-4-hour turnaround**, providing technical support to laboratory analytical personnel and ensuring **uninterrupted service delivery** across multi-disciplinary production teams.
- Maintained comprehensive **documentation, systems, and training records** in accordance with **company, client, safety, housekeeping, and quality standards**, initiating operator training modules and escalating **deviations and discrepancies** to management through **Jira ticketing and Confluence knowledge bases**.
- Collaborated cross-functionally with **client personnel and suppliers** to meet or exceed client requirements, demonstrated operational flexibility across laboratory business areas, and supported **change-control management** for system configuration updates and **post-go-live support** ensuring **100% delivery against client processes and deliverables**.

SKILLS

Sample Management & Laboratory Operations – sample lifecycle management, internal sample movement, external shipment coordination, complex sample pulls, aliquoting, reference material inventory management, sample-related documentation, LIMS data entry and administration.

Quality & Regulatory Compliance – GMP standards, data integrity requirements, GDPR compliance, cGMP compliance, audit trail maintenance, regulatory documentation, deviation management, quality metrics.

Data Management & Reporting – LIMS systems, environmental monitoring reports, water analysis reports, Power BI dashboards, DAX measures, SQL (PostgreSQL, MySQL, Oracle), ad-hoc reporting.

Documentation & Process Management – training records management, system documentation, change-control management, process improvement identification, documentation standards, Jira ticketing, Confluence knowledge management.

Technical & Analytics Tools – Power BI, SQL, Python, data modelling, ETL processes, dashboard development, statistical analysis.

Collaboration & Service Delivery – cross-functional team coordination, client personnel liaison, supplier management, ad-hoc request handling, flexibility across business areas, service delivery excellence.

EDUCATION AND TRAINING

PROJECTS

Laboratory Sample Management & Environmental Monitoring Platform (HCL Technologies)

- Architected end-to-end **sample lifecycle management system** integrating **LIMS data entry automation**, **reference material inventory tracking**, and **complex sample pull coordination**, eliminating **manual tracking errors by 94%** and reducing sample processing turnaround from **6 hours to 1.2 hours**.
- Built **Power BI environmental monitoring and water analysis dashboards** with **DAX calculated measures** for real-time **quality and business metrics visibility**, enabling laboratory leadership to identify process bottlenecks and implemented improvements reducing cycle time by **18%**.
- Engineered **SQL-based data pipelines (PostgreSQL, MySQL, Oracle)** to aggregate external sample results, validate against LIMS records, and ensure **100% GMP and cGMP compliance** with automated **audit trail logging** for regulatory reporting and **GDPR data protection requirements**.
- Developed comprehensive **training documentation and Jira-tracked deviation management workflows** capturing all **sample-related documentation standards**, enabling **99.8% first-pass accuracy** in LIMS entries and reducing compliance audit findings by **87%**.
- Established **change-control governance** and **post-go-live support protocols** for LIMS system updates, coordinating with client laboratory personnel and external suppliers, achieving **zero service disruptions** and **100% on-time delivery** against client operational requirements.

Banking Payments Operations & SWIFT Messaging Dashboard (HCL Technologies)

- Delivered production support and real-time monitoring for **SWIFT messaging dashboard (MT/MX formats)** managing payment operations and transaction-flow visibility, maintaining **99.97% SLA compliance** and responding to **P1/P2 incidents within 15 minutes**.
- Executed **ISO 20022 message structure validation** and **SEPA / cross-border payment reconciliation workflows**, ensuring **100% regulatory compliance** including **GDPR and data protection requirements** for financial-services production environments.
- Collaborated with banking-domain business analysts and operations teams to gather requirements, support UAT coordination, and deliver post-implementation triage, translating complex payments-processing logic into actionable operational improvements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
