PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Maintained and updated **Master Data** in enterprise **Business Central** ERP system; designed and executed **CSV data ports (interfaces)** to automate master data ingestion from legacy accounting systems, reducing manual entry errors by **92%** and cutting monthly reconciliation time by **8 hours**.
- Supported and developed **accounting solutions in Business Central** by translating business requirements from finance accountants into system configurations and custom reports; collaborated with cross-functional finance and IT stakeholders to deliver **3 major feature enhancements** improving month-end close processes.
- Managed **roll-out projects to new subsidiaries** across international operations; coordinated UAT with finance teams, performed system configuration, and documented **18 localized accounting processes** achieving **zero post-go-live incidents** across **4 subsidiary deployments**.
- Documented and improved the entire accounting **processes and systems landscape** including Business Central, downstream applications, and inter-system interfaces; created **comprehensive process maps and configuration guides** reducing onboarding time for new finance team members by **40%**.
- Supported **monthly group reporting** and **audit** activities from a systems perspective by automating data extraction and consolidation queries in **PostgreSQL and Oracle**, ensuring accurate financial statement preparation and regulatory compliance; managed **dunning team** technical requirements for accounts-receivable processes.
- Demonstrated **analytical mindset and problem-solving** across multiple concurrent finance systems projects; managed stakeholder communication, led **daily stand-ups**, and applied **IT-related project management** methodologies (Agile/Scrum) to deliver on-time, within-scope implementations supported by comprehensive audit trails and change-control documentation.

SKILLS

Finance ERP & Accounting Systems – Business Central, Master Data management, CSV data ports, accounting configuration, month-end close automation, group reporting, audit support.

Database & Data Integration – PostgreSQL, Oracle, MySQL, SQL, ETL, data warehousing, CSV interfaces, data validation, schema changes.

IT Project Management & Process Improvement – change management, UAT coordination, stakeholder management, documentation, process mapping, Agile/Scrum, stand-up facilitation.

Finance Domain Knowledge – accounting principles, accounts receivable, dunning processes, reconciliation workflows, subsidiary operations, regulatory compliance.

Software Development & Debugging – Python, Java Spring Boot, REST APIs, shell scripting, Linux, Git, Jenkins CI/CD, code reviews.

Enterprise Systems & Integrations – ERP support, cross-system data flows, business-system integration, international deployment, Jira, Confluence.

Monitoring, Analytics & Reporting – Power BI, Tableau, data dashboards, operational alerting, SLA management, incident response.

EDUCATION AND TRAINING

PROJECTS

Business Central Master Data Consolidation & Subsidiary Rollout Platform (HCL Technologies)

- Architected and executed a **multi-subsidiary Business Central deployment** supporting **4 international entities**; designed **CSV data ports** to migrate **180,000+ master records** (GL accounts, vendors, customers, cost centers) from legacy accounting systems with **zero data loss** and **99.8% validation accuracy**.
- Built **automated accounting interface layer** using **Python ETL scripts** and **Business Central extension development** to synchronize daily transactions between finance ERP and operational backend systems (**PostgreSQL, Oracle**); reduced manual reconciliation overhead by **65%** and accelerated month-end close by **3 days**.
- Developed **comprehensive accounting process documentation** and **configuration guides** for **18 localized GL hierarchies, tax workflows, and intercompany settlement rules**; trained finance teams across subsidiaries, achieving **100% first-time audit compliance** and enabling autonomous month-end operations.
- Implemented **change-control and UAT governance** across all deployments; coordinated **10+ configuration iterations** with accounting stakeholders and managed **post-go-live support** for dunning, reporting, and audit requirements, delivering **zero critical production incidents** in first **6 months of operation**.
- Designed **Power BI dashboards** for group reporting and financial consolidation, providing real-time visibility into **revenue, GL balances, and intercompany transactions** across **4 entities**; supported external audit by automating compliance data feeds and maintaining complete **system audit trails**.

Banking Payments Operations Dashboard & SWIFT Integration Support (HCL Technologies)

- Delivered **production support and monitoring** for a **SWIFT messaging and payments-operations dashboard** serving a major banking client; managed **P1/P2 incident response, SLA compliance**, and transaction-flow visibility for **50,000+ daily payment messages** using **Splunk and CloudWatch alerting**.
- Supported implementation of **ISO 20022 message format migration** and **SEPA instant payments processing** flows; collaborated with domain BAs and regulatory teams to ensure **GDPR compliance**, audit logging, and cross-border payment reconciliation workflows aligned with **PSD2 Open Banking standards**.
- Established **cross-functional UAT coordination** between finance operations and IT teams; documented **payment reconciliation processes** and provided post-implementation triage, reducing payment exceptions by **28%** and improving cash-position reporting accuracy to **99.95%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
