PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and developed **SAP BTP cloud-based applications** using **ABAP, CDS, RAP, and OData services** to modernize legacy enterprise systems; implemented **RESTful programming** patterns and **modern extensibility** frameworks reducing integration latency by **40%** across interconnected business modules.
- Led full-lifecycle **SAP S/4HANA implementation projects** from requirement gathering and technical design through go-live and post-implementation support; coordinated **ECC to S/4HANA upgrades** with **code remediation** and **RICEFW enhancements**, delivering on-time deployments with **zero critical incidents** in production.
- Architected and deployed **SAP Fiori** and **SAPUI5** user interfaces integrated with **OData** backend services; developed reusable technical frameworks adhering to **Clean core** guiding principles and cloud-native design patterns, enabling **15+ concurrent business applications** on **SAP BTP**.
- Implemented **SAP integration technologies** including **IDocs, RFC, BAPI, SOAP, and REST APIs** to synchronize data across **SAP SD, MM, FI/CO, and ERP modules**; designed data flows and change-control processes ensuring **100% audit trail compliance** and regulatory adherence in global enterprise environments.
- Provisioned and optimized **SAP HANA Cloud** and **S/4HANA environments** leveraging **SAP Build Work Zone, Business Application Studio, and GIT** for collaborative development; managed **CI/CD pipeline automation** and code review governance, reducing deployment time by **35%** and improving code quality metrics.
- Mentored junior developers on **ABAP best practices, CDS modeling, and SAP BTP architecture**; conducted technical design reviews and code audits ensuring adherence to global coding standards; created technical documentation including design specifications, test plans, and user manuals for **5+ production systems** supporting **500+ end users**.

SKILLS

SAP Technologies – SAP BTP, ABAP, SAP Fiori, SAPUI5, OData, CDS, RAP, CAP, SAP HANA Cloud, S/4HANA, Clean core.

SAP Modules & Domain – SAP SD, SAP MM, SAP FI/CO, RICEFW enhancements, SAP integration technologies, IDocs, RFC, BAPI, SOAP, REST APIs.

SAP Implementation & Infrastructure – SAP BTP implementation, ECC to S/4HANA upgrades, code remediation, SAP Cloud Platform, RISE, S/4HANA migration, SAP Build Work Zone, Business Application Studio.

Cloud & DevOps – RESTful programming, cloud-based application development, cloud mindset, GIT, CI/CD, Jenkins, code review, deployment automation.

Programming & Backend – Java, Spring Boot, Python, SQL (PostgreSQL, MySQL, Oracle), REST API development, system integrations, data modeling.

Enterprise & Data – ERP systems, business systems integration, change management, UAT coordination, technical documentation, AWS (EC2, S3, Lambda), Docker.

Professional & Leadership – Technical mentorship, cross-functional collaboration, Agile/Scrum, problem-solving, SLA management, production support.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

SAP S/4HANA Cloud-Native Platform Modernization (HCL Technologies)

- Architected and deployed a **greenfield SAP BTP application** combining **ABAP backend services, CDS data models, RAP frameworks, and SAPUI5 frontends** to replace legacy ERP modules; migrated **ECC to S/4HANA** with **code remediation** and **RICEFW enhancements**, eliminating **\$2.3M** in annual licensing overhead.
- Designed **OData-driven integration architecture** connecting **SAP SD, MM, FI/CO modules** using **IDocs, RFC, BAPI, and REST APIs** to synchronize real-time inventory, order, and financial data across **12 global business units**; achieved **99.8% uptime SLA** with automated failover and disaster-recovery procedures.
- Implemented **SAP Build Work Zone, Business Application Studio, and GIT-based CI/CD pipelines** on **SAP Cloud Platform** for collaborative development; reduced deployment cycle from **5 days to 18 hours** and enabled **50+ developers** to work on **HANA Cloud** applications with zero merge conflicts.
- Developed **SAP Fiori dashboards and SAPUI5 interfaces** adhering to **Clean core** principles and global UX standards; integrated **OData services** for real-time analytics and operational reporting, improving user adoption by **65%** and reducing support tickets by **30%**.
- Mentored **8 junior ABAP and SAP BTP developers** on modern extensibility patterns, CDS modeling, and cloud-native architecture; established code review governance, best-practices documentation, and automated testing frameworks, raising overall code quality score from **6.2 to 8.1** (out of 10).

Cross-Border Payments Integration & ISO 20022 Compliance Platform (HCL Technologies)

- Designed and deployed a **production-grade enterprise integration platform** connecting legacy banking systems to **SAP modules (SD, FI/CO)** for **SEPA, instant payments, and cross-border payment processing** using **ISO 20022 message standards (MT/MX)** and **REST APIs**.
- Implemented real-time **OData-based data synchronization** and **RFC connectors** to enforce **GDPR, audit trails, and regulatory compliance** requirements; achieved **100% transaction reconciliation accuracy** and zero data-loss incidents across **8 financial institutions**.
- Collaborated with banking domain BAs, operations teams, and compliance officers to translate payment-flow requirements into **ABAP backend services, CDS models, and SAP integration architectures**; delivered UAT support and post-go-live triage, reducing critical payment incidents by **45%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
