PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Administered and maintained **Microsoft 365, SharePoint Online, and Microsoft Teams** environments across enterprise banking systems; configured site collections, libraries, permissions frameworks, and information architecture governance policies to support 500+ concurrent users with **99.5% uptime SLA**.
- Designed, configured, and deployed **Power Automate workflows** to automate payment reconciliation, transaction validation, and cross-system data synchronisation between **Microsoft Dynamics 365**, SharePoint, and backend banking platforms; reduced manual processing overhead by **60%** and eliminated **40+ daily manual touchpoints**.
- Administered **Microsoft Dynamics 365 CRM architecture** including Dataverse table design, entity relationships, security roles, environments, and access controls; implemented role-based permissions and audit policies aligned with **GDPR, regulatory compliance, and data protection** frameworks for financial-services clients.
- Led **SharePoint Online governance, permissions audits, and information architecture optimisation** across departmental intranet sites and collaboration spaces; established access-control frameworks and oversharing prevention protocols, reducing unauthorised access incidents by **78%** and improving compliance audit readiness.
- Integrated **SharePoint, Microsoft Dynamics 365, and Power Automate** with legacy ERP systems and cloud platforms via **REST APIs, webhooks, and Dataverse connectors**; orchestrated change-control workflows and UAT coordination across cross-functional teams to enable seamless enterprise-system interoperability.
- Delivered user training, adoption support, and operational guidance on **Microsoft 365, Power Platform, and Copilot** technologies; generated **Power BI performance dashboards and usage analytics reports** tracking adoption metrics, system health, and continuous-improvement recommendations for IT leadership.

SKILLS

Microsoft Cloud & Administration – Microsoft 365, SharePoint Online, Microsoft Teams, OneDrive, Microsoft Dynamics 365 CRM, Dataverse, Power Platform, Azure.

Configuration & Governance – SharePoint site administration, permissions management, information architecture, security roles, access controls, audit policies, compliance frameworks, GDPR, data protection.

Low-Code / No-Code Development – Power Automate, Power Apps, Power BI, DAX, workflow automation, business process flows, cloud flows.

System Integration & Architecture – REST APIs, Dataverse connectors, webhooks, system interoperability, ERP integration, legacy-system connectivity, change-control management.

Business Intelligence & Reporting – Power BI, Tableau, performance dashboards, usage analytics, KPI tracking, data modelling, metrics generation.

Enterprise Technologies – Microsoft Purview, governance frameworks, compliance automation, IT service delivery, cloud engineering, continuous improvement.

Programming & Data Engineering – Python, SQL (PostgreSQL, MySQL, Oracle), Java, Spring Boot, Git, CI/CD, Linux, automation scripting.

EDUCATION AND TRAINING

PROJECTS

Enterprise SharePoint & Dynamics 365 Governance & Automation Platform (HCL Technologies)

- Architected and deployed a unified **Microsoft 365 + Dynamics 365 + Power Platform governance solution** for a multi-national banking organisation; designed **SharePoint Online information architecture** spanning 12 departmental intranet sites, 40+ team collaboration spaces, and centralized records-management libraries with role-based permissions enforced across **1,200+ active users**.
- Built **Power Automate cloud flows and business process flows** to orchestrate end-to-end payment reconciliation and transaction-validation workflows; integrated **Dataverse entities, REST APIs, and legacy ERP connectors** to automate data synchronisation between Dynamics 365, SharePoint document libraries, and backend banking systems; delivered **60% reduction in manual processing time** and **40+ eliminated daily touchpoints**.
- Implemented comprehensive **access-control governance, permissions auditing, and compliance frameworks** aligned with **GDPR and financial-services regulatory standards**; configured **Microsoft Purview data governance policies, security roles, and environment management** across production and non-production Dynamics 365 instances; achieved **100% audit-ready compliance status** with **zero unauthorised-access incidents** over 18-month period.
- Delivered **Power BI dashboards and Power Query ETL pipelines** for real-time monitoring of SharePoint site health, user adoption, Dynamics 365 entity utilisation, and system performance metrics; generated **weekly adoption and usage analytics reports** for IT leadership; drove **35% increase in Power Platform user adoption** through targeted training and continuous-improvement recommendations.
- Orchestrated multi-phase rollout and change-management programme across **8 business units**; conducted **user training sessions, adoption support, and Copilot onboarding**; coordinated **UAT, hypercare support, and post-go-live triage** with cross-functional teams including business analysts, IT operations, and regulatory compliance; achieved **98% user satisfaction rating** and **on-time deployment within budget**.

Cross-Border Payment Operations Dashboard & ISO 20022 Compliance Automation (HCL Technologies)

- Designed and deployed a **real-time SWIFT messaging and payment-operations dashboard** built with **Power BI and Dynamics 365** to monitor cross-border payment flows, SEPA instant payments, and transaction reconciliation for a global banking client; integrated **ISO 20022 message-format parsing, SWIFT MT/MX payload extraction, and regulatory audit-trail logging** via custom **Power Automate workflows and Dataverse integrations**.
- Implemented automated compliance-monitoring workflows using **Power Automate, Power Apps, and Dynamics 365 business process flows** to enforce **GDPR data-protection policies, PSD2 regulatory requirements, and transaction-audit logging**; reduced manual compliance-verification overhead by 55% and achieved **zero regulatory violations** across **500K+ monthly payment transactions**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
