PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **Azure and Microsoft 365 security solutions** using **Entra ID, Conditional Access, and Defender** across enterprise environments, reducing unauthorized access incidents by **40%** while maintaining user productivity for **5,000+** concurrent users.
- Conducted **Copilot and AI readiness assessments** including data exposure and access risk reviews for **12** client organizations, implementing **Microsoft Purview information protection, DLP policies, and data governance controls** to prevent **AI data infiltration** and ensure regulatory compliance with **GDPR** and data protection frameworks.
- Delivered **Azure and Microsoft 365 migrations** and modernization projects for **8** enterprise clients, managing change-control processes, UAT coordination, and post-go-live support across interconnected systems including **Active Directory, Exchange, RDS, and SQL Server** technologies.
- Designed and deployed **Cisco Umbrella DNS-layer security** infrastructure alongside **Azure networking** and **Hyper-V/VMware** virtualization platforms, achieving **99.8%** DNS filtering uptime and reducing malware-related incidents by **35%** across client networks.
- Led **Microsoft 365 security uplift and tenant posture improvement** initiatives using **Microsoft Purview DLP, Information Protection, and security governance frameworks**, conducting risk assessments and implementing controls that improved security posture scores by an average of **28 points** per client.
- Supported enterprise sales engagements with **secure solution design documentation, security-by-design principles, and AI readiness benefits analysis** for **15+** prospective clients, translating technical requirements into business outcomes and accelerating deal closure by **18%** through proactive risk mitigation strategies.

SKILLS

Cloud & Infrastructure – Microsoft Azure (compute, networking, security), Azure Virtual Machines, Azure Storage, Azure networking fundamentals, Hyper-V, VMware, on-premise to cloud migrations.

Microsoft 365 & Security – Microsoft 365 (Teams, Exchange, SharePoint), Entra ID (Azure AD), Conditional Access, Microsoft Defender for Endpoint, Microsoft Defender for Cloud, Microsoft Purview, Information Protection, DLP policies, data governance.

Microsoft Server Technologies – Active Directory (AD), Exchange Server, Remote Desktop Services (RDS), SQL Server, Windows Server administration, tenant configuration and management.

Security & Networking – Cisco Umbrella, DNS-layer security, security-by-design principles, threat assessment, AI data infiltration controls, information leakage prevention, GDPR compliance, access controls, identity governance.

AI & Copilot Readiness – Copilot adoption risk assessment, AI readiness controls, data exposure and access risk reviews, information governance for AI adoption.

Enterprise & DevOps – Azure DevOps, Git, CI/CD pipelines, change-control management, system integrations, REST APIs, UAT coordination, solution design and architecture, customer requirements gathering.

Data & Analytics – Power BI dashboards, data modelling, ETL processes, SQL (PostgreSQL, MySQL, Oracle), operational reporting, Python scripting for automation.

EDUCATION AND TRAINING

PROJECTS

Azure & Microsoft 365 Security-by-Design Migration Platform (HCL Technologies)

- Architected and implemented a comprehensive **Azure and Microsoft 365 migration and security readiness platform** for **6** multinational financial services clients, integrating **Entra ID identity governance, Conditional Access policies, Microsoft Defender for Cloud, and Microsoft Purview DLP controls** to enable secure Copilot and AI adoption.
- Designed **AI data infiltration and information leakage prevention controls** using **Microsoft Purview Information Protection, sensitivity labels, and DLP policies**, conducting **12** Copilot readiness assessments and reducing data exposure risk by **45%** across tenant environments while maintaining regulatory compliance with **GDPR, ISO 20022, and financial data protection standards**.
- Deployed **Cisco Umbrella DNS-layer security** alongside **Azure networking and Active Directory infrastructure**, managing **Hyper-V and VMware** virtualization estates and achieving **99.95%** uptime; orchestrated change-control management and UAT with **5** cross-functional stakeholder teams, reducing security incidents by **38%** post-deployment.
- Delivered **Microsoft 365 security uplift and tenant posture improvement projects** using **Entra ID, Exchange Server configuration, RDS hardening, and SQL Server security baselines**, improving average tenant security scores from **42%** to **78%** and enabling **8,500+** users to safely adopt Copilot within **6 weeks**.
- Engineered **role-based access controls (RBAC) and Conditional Access policy automation** using **Azure DevOps and PowerShell scripting**, reducing manual admin overhead by **60%** and accelerating onboarding cycles for new users from **5 days** to **8 hours**.

Enterprise Payments Operations Security & Compliance Dashboard (HCL Technologies)

- Developed **Power BI and real-time operational dashboard** for banking client's **SWIFT messaging and payments operations** platform, integrating **ISO 20022 message flows, SEPA payment tracking, and cross-border payment visibility** with **GDPR and regulatory compliance audit trails**.
- Implemented **information governance and DLP controls** for sensitive payment data, ensuring **100%** regulatory compliance across **25,000+** daily SWIFT transactions; reduced compliance audit findings by **92%** through automated **data protection and access control enforcement**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
