PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained high-performance **Shopify Plus storefronts** using **Liquid templating**, **JavaScript (ES6+)**, **SCSS**, and modern build tools; implemented responsive, accessible front-end code aligned with **WCAG** standards and e-commerce UX best practices, achieving **98% Lighthouse performance scores** across device types.
- Translated **Figma design system** files into production-ready, high-fidelity code by architecting **clean, maintainable component libraries**; collaborated with design-led teams to ensure pixel-perfect implementation and **CRO optimization**, increasing conversion rates by **12%** through iterative A/B testing and UX refinement.
- Integrated third-party **MarTech platforms** including **Klaviyo** email marketing, **REST and GraphQL APIs**, and analytics tools into Shopify Plus infrastructure; developed **data synchronization pipelines** using **JavaScript** and **API webhooks** to enable real-time customer segmentation and personalization across international markets.
- Managed **Git/GitHub workflows** with disciplined **branching strategies** and peer code reviews; established **CI/CD best practices** for automated testing and deployment, reducing release cycle time by **40%** and ensuring zero-downtime deployments across global e-commerce operations.
- Implemented **web accessibility standards (WCAG 2.1 AA)** compliance across Shopify Plus storefronts; conducted **performance optimization** and **A/B testing** to improve core web vitals, page load time, and user engagement; documented accessibility audit findings and remediation strategies for cross-functional team adoption.
- Collaborated with **senior technical stakeholders** and cross-functional teams to influence **architectural decisions** and feature direction; participated in technical discussions, managed competing priorities in a fast-paced environment, and delivered high-quality releases through strong communication and problem-solving across design, product, and operations.

SKILLS

Frontend Development – JavaScript (ES6+), HTML, CSS/SCSS, Liquid templating, responsive design, component-driven architecture, modern build tools.

Shopify & E-Commerce Platforms – Shopify Plus storefronts, Shopify theme development, Shopify CLI, Liquid customization, e-commerce UX principles, CRO, conversion optimization.

Design & Accessibility – Figma design system translation, WCAG 2.1 AA compliance, accessible web standards, design-to-code workflows, performance optimization.

Integrations & APIs – REST APIs, GraphQL APIs, third-party service integrations, Klaviyo email marketing platform, MarTech tool integration, API webhooks, data synchronization.

Version Control & Collaboration – Git, GitHub, branching strategies, code reviews, CI/CD pipelines, collaborative development practices.

Testing & Quality Assurance – A/B testing, feature testing, accessibility testing, performance testing, Lighthouse optimization, web vitals.

AI-Assisted Development – AI-powered code generation, prompt-driven development efficiency, code quality improvement tools.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Design-System-Driven Shopify Plus Storefront Rebuild (HCL Technologies)

- Led conversion-focused redesign of global **Shopify Plus storefront** by translating refined **Figma design system** into production-ready, pixel-perfect code using **Liquid, JavaScript (ES6+), and SCSS**; built reusable component library aligned with modern web standards and e-commerce best practices.
- Integrated **Klaviyo email marketing platform, REST/GraphQL APIs**, and analytics tools into Shopify Plus architecture; implemented real-time customer data synchronization and behavioral segmentation, enabling personalized campaign delivery across **15+ international markets** with **28% improvement in email engagement**.
- Established **Git/GitHub branching strategies** and **CI/CD automation** for collaborative feature development and zero-downtime releases; conducted peer code reviews ensuring **WCAG 2.1 AA accessibility compliance** and performance standards, reducing release cycle time by **40%**.
- Optimized **Shopify Plus storefront performance** through **Lighthouse profiling**, lazy-loading, code-splitting, and asset optimization; achieved **98+ Lighthouse scores** and **2.1s Largest Contentful Paint**, driving **15% increase in conversion rates** via improved page speed and mobile UX.
- Implemented **A/B testing framework** and **CRO optimization** workflows to validate design changes and feature rollouts; collaborated with product and design teams to iterate on user experience, achieving **12% lift in add-to-cart completion** across device types.

Multi-Region E-Commerce Data Integration & Compliance Pipeline (HCL Technologies)

- Architected **REST API integration layer** connecting Shopify Plus platform to legacy enterprise systems using **JavaScript** and **data synchronization webhooks**; enabled real-time inventory, order, and customer data flows across **PostgreSQL** and cloud infrastructure serving **5+ regional operations**.
- Developed **GraphQL API wrapper** for third-party **MarTech tools** and analytics platforms; implemented rate-limiting, caching, and error-handling to ensure **99.5% uptime** and sub-100ms response latencies for storefront integrations.
- Ensured **WCAG accessibility compliance** and **data protection regulations** (including GDPR principles for international storefronts); documented integration audit trails and compliance checkpoints for cross-border e-commerce operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
