PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Modelled and underwritten **commercial real estate credit products** across multiple asset classes and geographies using **financial analysis**, **loan structuring**, and **investment memorandum preparation** to evaluate direct lending opportunities; conducted **macro and micro level data analysis** to inform investment decision-making, delivering **risk-adjusted return assessments** for EMEA portfolio expansion.
- Managed entire **due diligence processes** across internal and external stakeholders, coordinating **investment committees**, **deal screening sessions**, and **pipeline meetings**; structured **loan agreements** and participated in **closing processes**, reducing deal cycle time by **18%** through streamlined documentation workflows.
- Developed **financial models** and **underwriting analyses** in **Excel** and **Python** for **commercial real estate assets**, incorporating **debt service coverage ratios (DSCR)**, **loan-to-value (LTV)**, and **stress-testing scenarios**; automated **data consolidation** and **sensitivity analyses** across **80+ loan portfolios**, reducing manual reporting effort by **35%**.
- Coordinated **due diligence coordination** and **asset management reporting** requirements using **Power BI** and **Tableau** dashboards; synthesized operational and financial metrics into executive-ready reports for KKR Real Estate Credit and KKR Real Estate Equity stakeholders, supporting **investment committee** presentations and **portfolio performance tracking**.
- Executed **investment process management** across bidding, underwriting, and closing phases using **project management tools** and **change-control methodologies**; liaised cross-functionally with investment professionals across **KKR Real Estate Credit**, **KKR Real Estate Equity**, and broader KKR organization to align underwriting standards and portfolio strategy, facilitating **12+ deal closures** valued at **€280M+**.
- Performed **financial analysis** and **valuation assessments** on real estate credit opportunities using **discounted cash flow (DCF)** methodologies, **comparable company analysis**, and **market research**; built proprietary **loan underwriting databases** and **deal tracking systems** to support pipeline governance and investment theme development across EMEA markets.

SKILLS

Real Estate Credit & Underwriting – Commercial real estate underwriting, loan structuring, direct lending analysis, DSCR/LTV modelling, stress-testing, debt service analysis, valuation methodologies, DCF analysis, comparable company analysis, loan origination.

Investment & Financial Analysis – Investment memorandum preparation, due diligence coordination, risk-adjusted return assessment, macro/micro economic analysis, pipeline management, investment committee support, deal screening, deal sourcing and closing processes.

Data Analytics & Modelling – Financial modelling (Excel, Python), sensitivity analysis, Power BI dashboards, Tableau visualisation, data consolidation, reporting automation, portfolio performance tracking, KPI development.

Asset Management & Portfolio Operations – Ongoing loan asset management, asset management reporting, portfolio monitoring, loan performance analytics, reconciliation workflows, change-control management, UAT coordination.

Technical & Programming – Python (pandas, NumPy), SQL (PostgreSQL, MySQL, Oracle), Excel (VBA, advanced formulas), Power BI (DAX, Power Query, data modelling), Tableau, Jira, Confluence, Git, REST APIs.

Software & Enterprise Systems – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins CI/CD pipelines, Linux, Shell scripting, database schema design, system integrations, ERP support.

Business & Domain Knowledge – EMEA real estate markets, Western Europe regulatory environment, cross-border transaction structures, risk management frameworks, Agile/Scrum methodologies, financial services compliance.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Real Estate Credit Underwriting & Portfolio Analytics Platform (HCL Technologies)

- Architected and deployed a comprehensive **loan underwriting and portfolio management system** serving **KKR Real Estate Credit's EMEA direct lending operation**, integrating **financial modelling, due diligence tracking**, and **investment committee reporting** into a unified **Python / SQL backend** with **Power BI analytics layer**.
- Built **dynamic financial models** for **commercial real estate credit products** incorporating **DSCR analysis, LTV modelling, debt service calculations**, and **multi-scenario stress-testing**; models auto-generated **investment memorandums** and **risk assessments** for **80+ concurrent deal underwritings**, reducing manual underwriting time by **40%**.
- Developed **Power BI dashboards** and **operational reports** tracking **loan origination pipeline, asset performance metrics, portfolio concentration risk**, and **deal-closure timelines**; enabled real-time **investment committee visibility** across **€1.2B+ AUM portfolio** and **12 active investment vehicles**.
- Implemented **due diligence workflow automation** using **Python ETL scripts** and **SQL data pipelines** to consolidate external research, property appraisals, tenant financials, and market comps from **15+ data sources**; reduced due diligence coordination time by **28%** and standardized underwriting documentation across EMEA offices.
- Designed **asset management reporting framework** with **Tableau visualisations** for ongoing **loan performance monitoring**, covenant compliance tracking, and **portfolio risk analytics**; automated monthly performance reporting to **investment stakeholders** and **limited partners**, improving reporting frequency from quarterly to monthly with zero manual overhead.

Payments Operations & SWIFT Messaging Analytics Dashboard (HCL Technologies)

- Designed and maintained a **real-time SWIFT messaging and payments operations dashboard** for a tier-1 banking client, tracking **MT/MX message flows, transaction settlement status**, and **SLA compliance** across **100,000+ daily payment messages** in **SEPA, cross-border**, and **instant payment corridors**.
- Consolidated **ISO 20022 message data** and operational metrics using **SQL queries (PostgreSQL/Oracle)** and **Python data pipelines**, feeding **Splunk monitoring dashboards** and custom **Power BI reports** for payments operations teams; enabled **P1/P2 incident detection** with **15-minute alert latency**, reducing mean-time-to-resolution by **32%**.
- Collaborated with **banking-domain business analysts** and **regulatory compliance teams** to embed **GDPR data protection, audit trail**, and **PSD2 regulatory requirements** into dashboard design; ensured **100% compliance** with financial services SLAs and supported **UAT cycles** across **3+ system releases** annually.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
