PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and deployed **scalable cloud-native services** on AWS (EC2, S3, Lambda, CloudWatch) supporting enterprise Java Spring Boot and Python microservices; reduced deployment cycle time by **40%** through **CI/CD pipeline optimization** with **Jenkins** and **Git branching strategies**.
- Developed **high-quality backend APIs and REST services** using **Java Spring Boot** and **Python (Flask, FastAPI)**, implementing modern architectural patterns for **scalability and reliability**; handled feature development, bug fixes, and code quality improvements across **PostgreSQL, MySQL, and Oracle** databases.
- Collaborated with **cross-functional partners** including Product Management, QA, and business teams to translate functional requirements into well-designed, scalable technical solutions; participated in **design and code reviews** applying best engineering practices for **clean code, testing, security, and performance optimization**.
- Built **data-driven analytics applications** leveraging **Power BI, Tableau, DAX measures, and data modelling** to empower business stakeholders with actionable insights; developed **ETL pipelines** using **Python (pandas, NumPy)** and **SQL** for reliable data warehousing and reporting infrastructure supporting **SLA-critical business operations**.
- Supported modernization and optimization of **existing enterprise systems** through **service-based architectures and cloud scalability initiatives**; managed **change-control processes, UAT coordination, and post-go-live support** for interconnected systems, ensuring **P1/P2 incident response** and **99.5% uptime SLAs**.
- Applied **machine learning fundamentals (supervised/unsupervised learning, evaluation metrics)** and **statistical analysis (regression, hypothesis testing, A/B testing)** to enhance analytics capabilities; contributed to **operational excellence** through **Splunk and Dynatrace monitoring dashboards**, reducing mean-time-to-resolution by **35%**.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Azure, Docker, Linux, CI/CD (Jenkins, Git).

Backend & API Development – Java Spring Boot, Python (Flask, FastAPI), REST APIs, microservices architecture, modern architectural patterns.

Data Engineering & Analytics – Databricks, ETL pipelines, data warehousing, Python (pandas, NumPy, scikit-learn), SQL (PostgreSQL, MySQL, Oracle), data modelling.

Business Intelligence & Visualization – Power BI (dashboards, DAX, Power Query), Tableau, interactive reporting, data-driven decision-making.

Machine Learning & Statistics – Supervised learning, unsupervised learning, regression, hypothesis testing, A/B testing, time-series analysis, evaluation metrics.

Operational Excellence – Splunk, Dynatrace, monitoring & alerting, SLA management, incident management, change-control, code reviews.

Agile & Collaboration – Jira, Confluence, Scrum ceremonies, cross-functional teamwork, design reviews, best engineering practices.

EDUCATION AND TRAINING

PROJECTS

Cloud-Native Experimentation Platform & Analytics Dashboard (HCL Technologies)

- Architected and built a **cloud-native experimentation platform** on AWS using **Spring Boot** microservices, **Databricks** for analytics processing, and **Python ETL pipelines** to enable data-driven decision-making across **200+ enterprise clients**; platform processed **50M+ experimental events monthly** with **sub-second API latency**.
- Designed **scalable REST APIs and backend services** with **Spring Boot**, integrated with **Databricks** for real-time data transformation and statistical analysis; implemented **PostgreSQL** data warehousing layer supporting **1000+ concurrent analytical queries** without performance degradation.
- Developed **Power BI and Tableau interactive dashboards** with **DAX measures and Power Query ETL** to visualize experimentation results, A/B test metrics, and business KPIs; dashboards delivered **40% faster insights** to stakeholders and reduced decision-cycle time from weeks to days.
- Contributed to **modern system design and architecture reviews**, applying **cloud-native patterns, containerization with Docker**, and **automated CI/CD pipelines** via **Jenkins and Git**; implemented **comprehensive monitoring with CloudWatch and alerting**, achieving **99.9% platform availability**.
- Collaborated with **cross-functional Product, QA, and Data Science teams** to translate experimentation requirements into scalable technical solutions; supported **operational excellence through code reviews, testing best practices, and security hardening**, reducing production incidents by **45%**.

SWIFT Payments Operations Dashboard & ISO 20022 Migration (HCL Technologies)

- Built and maintained a **production-grade payments operations dashboard** supporting a tier-1 banking client; dashboard provided **real-time visibility into SWIFT message flows (MT and MX formats), transaction routing, and ISO 20022 message structures** for **500+ daily cross-border payment transactions**.
- Integrated **Splunk and Dynatrace monitoring** for **SLA-critical incident alerting** on payment message failures, reconciliation anomalies, and regulatory compliance violations; reduced **mean-time-to-resolution by 50%** through automated alerting and **Python-based root-cause analysis scripts**.
- Supported **SEPA instant payments and ISO 20022 migration initiatives**, collaborating with banking-domain BAs and operations teams to ensure **GDPR, audit trails, and regulatory compliance** across system changes; coordinated **UAT and post-implementation triage** across interconnected ERP and payments systems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
