PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided **Tier 1 and Tier 2 system support** for enterprise HR and payroll platforms, **troubleshooting** configuration issues, **identifying root causes**, and **escalating complex issues** to leadership while supporting resolution through **testing and validation**; reduced average incident resolution time by **35%** through systematic issue documentation and knowledge-base development.
- Performed **system configuration and maintenance** across **Core HR, Payroll, Time & Attendance**, and enterprise business modules using **SQL** and **REST APIs** for data validation; executed **regression testing** and **user acceptance testing (UAT)** for system patches, releases, and policy-driven changes across **3+ major release cycles**.
- Ensured **data integrity and compliance** through **regular audits, validation checks**, and **payroll accuracy reviews**; conducted **compliance testing** related to regulatory and policy changes, identifying and resolving **120+ data discrepancies annually** before payroll processing to maintain **zero-error** payroll outcomes.
- Designed and maintained **Dayforce reports and dashboards** using **SQL queries** and **Power BI** for HR, Payroll, and business leadership; partnered with stakeholders to deliver **ad hoc reporting** and **analytics enhancements** that improved decision-making visibility and reduced manual reporting effort by **40%**.
- Collaborated with **HR Services, Payroll teams**, and **non-technical stakeholders** to identify recurring system issues, support **continuous improvement initiatives**, and eliminate manual workarounds; contributed to **system optimization roadmap** and provided training materials and **user-facing documentation** that reduced support tickets by **28%**.
- Managed **change-control processes** and **system maintenance schedules** for interconnected HR and payroll systems; coordinated **UAT coordination**, post-implementation support, and cross-functional validation across payroll, time & attendance, and core HR modules to ensure reliable and predictable platform performance for **500+ organizational users**.

SKILLS

HRIS & HR Systems – Dayforce platform support, Core HR configuration, Payroll systems, Time & Attendance configuration, HR Services operations.

Data Integrity & Compliance – Data audits, validation checks, payroll accuracy review, regulatory compliance testing, policy-change testing, GDPR awareness.

Reporting & Analytics – Dayforce reporting, Power BI, SQL reporting, ad hoc report development, dashboard design, DAX, Power Query.

System Configuration & Troubleshooting – System configuration, regression testing, user acceptance testing (UAT), issue troubleshooting, root-cause analysis, system maintenance, documentation.

Database & Query Languages – SQL (PostgreSQL, MySQL, Oracle), data validation, schema understanding, ad hoc querying.

Technical & Enterprise Skills – REST APIs, change-control management, cross-functional collaboration, stakeholder communication, Linux, Git, Jira.

Certifications & Education – MSc Data Analytics (National College of Ireland), Bachelor of Engineering in Computer Science, IELTS Academic Band 7/9, Full Stack Java Spring Boot & Angular.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Dayforce HRIS Data Integrity & Payroll Audit Automation Platform (HCL Technologies)

- Architected and deployed an automated **data validation and compliance-testing framework** for Dayforce using **SQL** and **Power BI** dashboards to proactively identify payroll, Core HR, and Time & Attendance data anomalies before payroll processing cycles; reduced payroll errors by **99.2%** and eliminated manual audit bottlenecks across **6 pay cycles**.
- Built **executive-facing Power BI dashboards** and **real-time reporting endpoints** that consolidated payroll accuracy metrics, regulatory compliance status, and recurring issue trends; enabled HRIS leadership to make data-driven decisions on system optimization and reduce duplicate support tickets by **45%**.
- Designed **automated regression-test suites** using **SQL validation queries** and documented **standard operating procedures (SOPs)** for system configuration changes, patches, and releases; validated **4+ major Dayforce releases** and reduced UAT cycle time by **32%** through repeatable testing automation.
- Partnered with Payroll and HR Services teams to document root causes for **recurring Dayforce configuration issues** and created **user-facing knowledge-base articles** and training materials; reduced Tier 1 support escalations by **38%** and improved first-contact resolution rate to **72%**.
- Implemented **change-control tracking and system-maintenance schedules** across interconnected HR and payroll modules; coordinated **cross-functional UAT** for policy changes and regulatory compliance updates, ensuring zero-downtime deployments for **500+ users** across North America and EMEA regions.

Banking Payments Operations Dashboard & SWIFT Message Compliance Monitoring (HCL Technologies)

- Engineered and sustained a **production SWIFT messaging and payments-operations dashboard** supporting a global banking client, providing **real-time transaction-flow visibility** and **operational alerting** for **MT and MX message formats** across **SEPA, cross-border, and instant payment channels**; maintained **99.8% uptime SLA** across **10+ payment corridors**.
- Implemented **compliance and audit-trail monitoring** for **ISO 20022 message flows**, payment reconciliation workflows, and **PSD2 / GDPR regulatory requirements** using **Splunk and CloudWatch**; conducted **P1/P2 incident response** and root-cause analysis, achieving **100% regulatory audit pass-rate** for **3 consecutive years**.
- Collaborated with banking-domain business analysts, operations teams, and regulatory stakeholders to support **UAT coordination**, post-implementation triage, and **cross-system integrations** via **REST APIs** and database-level flows across payment infrastructure; reduced payment-processing failures by **22%** through data-validation optimization.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
