PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Led **supplier qualification and onboarding activities** for enterprise software and infrastructure components at HCL, conducting risk assessments, vendor evaluations, and approval workflows aligned with **ISO 13485**, **GMP**, and **FDA QSR** regulatory frameworks to ensure supply chain compliance and patient safety across medical-grade systems.
- Developed and executed **supplier audit programmes** using risk-based assessment methodologies, performing **compliance audits** across 15+ external vendors and internal quality systems to validate **ISO 13485** adherence, **EU MDR** readiness, and regulatory controls, driving **92% first-pass audit pass rate** and eliminating critical non-conformances.
- Monitored **supplier performance metrics and trends** across quality, delivery, and cost KPIs using **Power BI** dashboards and **DAX** measures, implementing **corrective and preventive actions (CAPA)** frameworks to address root-cause quality issues, systemic risks, and process deviations; reduced supplier-related defects by **38%** year-over-year.
- Served as primary **quality interface with suppliers**, leading cross-functional problem resolution for **supplier non-conformances** and escalations involving engineering, operations, and regulatory stakeholders; translated complex technical and regulatory concepts to non-technical audiences, achieving **100% on-time CAPA closure** across **120+ quality incidents**.
- Evaluated **supplier quality systems and internal controls** through on-site assessments and document reviews, providing actionable feedback on process improvements, documentation rigor, and regulatory alignment; mentored junior engineers on audit methodology, quality standards interpretation, and continuous improvement culture aligned with **Patient Safety, Quality, and Accountability** principles.
- Managed resources and planning for **large-scale supplier quality initiatives** including qualification campaigns, system transitions, and regulatory remediation projects; demonstrated **strategic thinking** and cross-functional leadership by influencing suppliers and internal stakeholders without direct authority to achieve organizational objectives on schedule and budget.

SKILLS

Supplier Quality & Regulatory – Supplier Quality Engineering, Supplier Qualification, Supplier Audits, Supplier Development, GMP (Good Manufacturing Practice), ISO 13485, FDA QSR (Quality System Regulation), EU MDR (Medical Device Regulation), Compliance Auditing, Risk Assessment.

Quality Systems & CAPA – Corrective and Preventive Actions (CAPA), Non-Conformance Management, Quality System Evaluation, Internal Controls Assessment, Change Control Management, FDA Compliance, Regulatory Documentation.

Performance Monitoring & Analytics – Performance Metrics, Trend Analysis, Power BI, DAX, Data Modelling, KPI Dashboards, Root-Cause Analysis, Problem-Solving.

Cross-Functional Leadership – Stakeholder Management, Team Mentoring, Supplier Relations, Problem Resolution, Technical Communication, Influence Without Authority, Succession Planning.

Data & Engineering – SQL (PostgreSQL, MySQL, Oracle), Python, Data Analytics, Statistical Analysis, Regulatory Data Requirements.

Certifications & Standards – IELTS Academic (Band 7/9), Bachelor of Engineering in Computer Science, MSc Data Analytics.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin	02/2026
BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India	01/2021

PROJECTS

Supplier Quality Management System & Audit Programme Automation (HCL Technologies)

- Architected an end-to-end **Supplier Quality Management System (SQMS)** encompassing supplier qualification workflows, audit scheduling, risk-based assessment templates, and CAPA tracking aligned with **ISO 13485, GMP, FDA QSR, and EU MDR** regulatory requirements for a regulated medical-device supply chain.
- Built **Power BI dashboards** using **DAX measures** and **data modelling** to consolidate supplier performance across quality, on-time delivery, and compliance metrics; provided real-time visibility into audit status, non-conformance trends, and CAPA effectiveness across 40+ active suppliers, enabling data-driven supplier development prioritization.
- Automated supplier audit scheduling, audit-report generation, and evidence aggregation using **Python ETL** pipelines and **SQL** database schemas (PostgreSQL), reducing manual audit administration by **60%** and accelerating audit-cycle turnaround from 6 weeks to 3 weeks while maintaining regulatory documentation integrity.
- Implemented a **risk-based supplier assessment framework** that classified vendors by regulatory criticality, manufacturing complexity, and historical performance; established tiered audit frequencies and control requirements, resulting in **23% reduction in audit resource expenditure** while increasing compliance detection sensitivity by **45%**.
- Led cross-functional workshops with Quality, Engineering, Operations, and Regulatory teams to translate **ISO 13485** and **FDA QSR** control requirements into supplier audit protocols; trained 8 junior quality engineers on audit execution, CAPA methodology, and regulatory interpretation, building sustainable capability for supplier compliance management.

Supplier Compliance & Regulatory Readiness Initiative for EU MDR Transition (HCL Technologies)

- Led assessment of supplier readiness for **EU MDR** implementation across 35+ component and service vendors, identifying regulatory gaps, documentation deficiencies, and system control weaknesses; prioritized suppliers by criticality and remediation timeline, ensuring 100% supplier compliance prior to regulatory transition deadline.
- Conducted on-site **supplier audits** and document reviews to evaluate alignment with **EU MDR** technical documentation requirements, traceability standards, and post-market surveillance obligations; provided clear, actionable feedback to suppliers on required system improvements and control enhancements.
- Collaborated with Quality Assurance and Regulatory Affairs to develop supplier **compliance audit checklists** and control matrices aligned with **EU MDR** annexes; mentored 3 junior engineers on regulatory interpretation and audit execution, enabling scalable supplier assessment across organizational initiatives.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023

- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
