PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed timely and accurate **client billing** and **revenue recognition** across multiple legal entities, processing **month-end financial close** accruals with **100% accuracy** to meet strict reporting deadlines and **SOX compliance** requirements at enterprise scale.
- Owned **client static data** setup, maintenance, and interpretation of fee arrangements across **high-profile banking clients**, ensuring correct reflection in legal books and **audit trail** documentation; coordinated with Client Services, Business Operations, and Financial Control teams to validate all new/terminated business within agreed timelines.
- Executed **fee collection** procedures including generation of **payment instructions** and **banking entries** using **Oracle SQL** and **ERP integrations**, reducing collection cycle time by **18 days** while maintaining adherence to **company and client-authorized procedures**.
- Served as **Subject Matter Expert** on fee-related processes, driving **internal and external audit** support and **SOX control improvements**; identified and resolved **billing delays and financial discrepancies** through root-cause analysis, escalation procedures, and timely communication with stakeholders across **EMEA legal entities**.
- Developed **Power BI dashboards** and **MS Excel reporting models** for fee analytics, accruals tracking, and client billing visibility, enabling finance leadership to monitor **revenue accuracy** and **collection status** in real-time across **40+ high-profile clients**.
- Partnered with New Business, Operations, and Client Services teams to capture, accrue, and invoice new fee arrangements; demonstrated meticulous attention to detail and strong **organizational skills** managing variable workloads, changing deadlines, and **month-end close cycles** in a fast-paced international finance operations environment.

SKILLS

Finance Operations & Billing – Client billing, revenue recognition, accruals, month-end close, fee arrangements, static data management, payment instructions, banking entries, collection procedures.

Financial Control & Compliance – SOX compliance, audit requirements, audit trail documentation, internal and external audits, control design and improvement, regulatory adherence.

Business Systems & Integration – Oracle SQL, ERP integrations, PostgreSQL, MySQL, REST API integrations, cross-system data flows, change management, UAT coordination.

Analytics & Reporting – Power BI, MS Excel (advanced), DAX, Power Query, data modelling, billing dashboards, financial KPI reporting, accruals tracking.

Stakeholder Management & Communication – Client relationship management, cross-functional collaboration, business partnering, escalation procedures, written and verbal communication, high-profile client liaison.

Core Competencies – Meticulous attention to detail, numerical accuracy, analytical problem-solving, planning and organisation, flexible approach to changing deadlines and workloads.

EDUCATION AND TRAINING

PROJECTS

International Fees Billing & Revenue Reconciliation Platform (HCL Technologies)

- Architected and deployed an **integrated fee billing platform** across **15 EMEA legal entities**, consolidating client static data, fee arrangement interpretation, and accruals logic into a **single source of truth**, reducing manual billing errors by **94%** and accelerating month-end close by **3 days**.
- Built **Power BI dashboards** and **Oracle SQL-based reporting** to track **revenue recognition, collections status**, and **accruals accuracy** for **45+ high-profile banking clients**; delivered real-time visibility to finance leadership and enabled **proactive identification** of billing delays and discrepancies.
- Implemented **payment instruction generation** and **banking entry automation** using **Python ETL scripts** and **ERP integrations**, eliminating manual data entry and reducing collection cycle time by **18 days** while maintaining **100% compliance** with client-authorised procedures.
- Designed and enforced **SOX control procedures** around client static data governance, fee arrangement validation, and accruals sign-off; conducted **internal and external audit** support workstreams, documenting audit trails and remediation of **3 critical control gaps**.
- Led cross-functional coordination with Client Services, Business Operations, and Financial Control teams to ensure **new business capture, termination processing**, and **timely invoicing** across all assigned clients; delivered **100% on-time delivery** of billing for **8 quarters** despite variable workloads and monthly close deadlines.

Banking Payments Operations Dashboard & ISO 20022 Migration Support (HCL Technologies)

- Supported production and monitoring of a **SWIFT messaging dashboard** for a tier-1 banking client, providing real-time **transaction-flow visibility** and **payment operations alerting** across **SEPA, cross-border payments**, and instant-payment corridors; achieved **99.8% uptime SLA** and enabled **sub-5-minute** incident response.
- Partnered with banking domain Business Analysts to interpret **ISO 20022 message formats (MT/MX)** and payments-processing workflows, ensuring **regulatory compliance** and **audit trail** requirements were embedded in production support procedures and monitoring rules.
- Executed **change management** and **UAT coordination** for payments-system upgrades, liaising with business operations teams, regulators, and external partners to validate **GDPR and Data Protection** controls and post-implementation triage across **PSD2 / Open Banking** infrastructure.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
