PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Configured and managed **Microsoft Entra ID (Azure AD)** identity governance, **conditional access policies**, and **multi-factor authentication (MFA)** across enterprise banking and payments infrastructure at HCL, supporting **Zero Trust** principles for 500+ users with **100% compliance** to regulatory identity and access controls.
- Implemented **Privileged Identity Management (PIM)** and **role-based access controls (RBAC)** for banking production environments handling SWIFT messaging and cross-border payment systems, reducing unauthorized privilege escalation incidents by **95%** and aligning with GDPR / Data Protection frameworks.
- Deployed and managed **Microsoft Intune** for device compliance, application deployment, and endpoint configuration across financial-services operations teams; integrated with **Microsoft Defender XDR** (Defender for Endpoint, Defender for Office 365) to monitor security alerts, detect threats, and respond to security incidents with **sub-2-hour SLA** remediation.
- Monitored and responded to security alerts using **Microsoft Sentinel** and **Splunk** SIEM tools, conducting threat evaluation and security incident response for production payment operations; led post-incident investigations and remediation strategies aligned with **ITIL incident management** and problem management disciplines.
- Supported Level 3 incident management and technical troubleshooting for enterprise Java/.NET applications and ERP business systems using **ITIL-aligned service desk** principles (incident management, service request management, problem management, change management); maintained detailed technical documentation, SOPs, runbooks, and knowledge management systems with **98% SLA adherence**.
- Applied **Zero Trust security principles** across identity, devices, and applications; secured **Azure resources** including network security groups, firewalls, and encryption; demonstrated awareness of cybersecurity best practices (phishing awareness, IAM, MFA, **Microsoft Purview Information Protection**); participated in Change Advisory Board (CAB) meetings and continual service improvement initiatives.

SKILLS

Identity & Access Management – Microsoft Entra ID (Azure AD), Privileged Identity Management (PIM), role-based access controls (RBAC), conditional access policies, multi-factor authentication (MFA), Zero Trust architecture.

Endpoint & Device Management – Microsoft Intune, device compliance, application deployment, endpoint configuration, Microsoft Defender for Endpoint.

Security Operations & SIEM – Microsoft Sentinel, Microsoft Defender XDR, Defender for Office 365, Splunk, threat evaluation, security incident response, alert monitoring.

Cloud Security & Infrastructure – Azure security, network security groups, firewalls, encryption, Azure resource hardening.

IT Service Management – ITIL frameworks, incident management, service request management, problem management, change management, Change Advisory Board (CAB), continual service improvement.

Cybersecurity & Compliance – Microsoft Purview Information Protection, GDPR, Data Protection, phishing awareness, IAM best practices, security incident response.

Enterprise Systems & Payments Domain – Banking production support, SWIFT messaging (MT/MX), ISO 20022 message flows, SEPA / cross-border payments, PSD2, ERP integrations.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Zero Trust Identity & Endpoint Security Platform (HCL Technologies)

- Architected and deployed end-to-end **Zero Trust security framework** across banking and payments infrastructure, configuring **Microsoft Entra ID** with **conditional access**, **MFA**, and **Privileged Identity Management (PIM)** to replace legacy perimeter-based access model for 500+ financial-services operations users.
- Implemented **Microsoft Intune** device compliance and **Microsoft Defender XDR** (Endpoint, Office 365) with **Microsoft Sentinel** SIEM integration, achieving real-time threat detection and **sub-90-second** alert-to-triage workflow for production payment environments handling SWIFT and ISO 20022 message flows.
- Established **ITIL-aligned incident management, problem management, and change management** processes; created comprehensive runbooks and knowledge management documentation for **Level 3 incident response**, reducing mean-time-to-resolution (MTTR) by **40%** and improving SLA compliance to **99.2%**.
- Conducted **threat evaluation** and led security incident response investigations across identity, device, and application layers; implemented **Microsoft Purview Information Protection** and **GDPR / Data Protection** controls to secure sensitive payment data, achieving **zero compliance breaches** across 12-month audit cycle.
- Collaborated with security architects, operations teams, and Change Advisory Board to translate cybersecurity best practices (Zero Trust, IAM, MFA, phishing awareness) into production playbooks; delivered training and user-friendly technical guidance to 50+ cross-functional IT and business stakeholders.

SWIFT Payments & ERP Security Compliance Incident Response Program (HCL Technologies)

- Coordinated **Level 3 technical troubleshooting** and **security incident response** for SWIFT messaging and cross-border payment dashboards integrated with ERP business systems, using **Splunk** monitoring and **ITIL incident management** disciplines to resolve P1/P2 production incidents with **99.5% uptime**.
- Documented security baselines, change-control procedures, and post-implementation remediation strategies for GDPR and **Data Protection** compliance across banking production environments; maintained **Knowledge Management** system with 150+ technical runbooks and SOPs aligned to **continual service improvement** principles.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
