PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Led **Computer System Validation (CSV)** activities across **GxP-regulated manufacturing systems**, preparing and executing complete validation deliverables including **User Requirements Specifications (URS)**, **Risk Assessments (RA)**, and **IQ/OQ/PQ protocols** for tablet manufacturing and secondary packaging operations, achieving **100% regulatory compliance** and zero audit findings.
- Maintained validated state of computerised systems through **periodic compliance reviews** and **GAMP 5-aligned documentation practices**, applying **data integrity principles and Annex 11** standards across **21 CFR Part 11-regulated environments** with **ongoing audit readiness** across 8+ interconnected manufacturing platforms.
- Managed complete **Quality Management System (QMS) records** including **Change Controls, Deviations, Investigations, and CAPA** processes for **GxP systems**, processing **150+ change requests annually** with **zero compliance gaps** and supporting successful internal and external regulatory inspections.
- Delivered full **CSV lifecycle documentation** across **manufacturing operations** systems, authoring **validation protocols, execution reports, and traceability matrices** using **risk-based approaches** and **GAMP 5 governance** to support audit readiness and regulatory submission requirements.
- Executed **QMS process workflows** and **regulatory compliance management** through systematic administration of change-control approvals, deviation investigations, and corrective-action tracking in pharmaceutical manufacturing environments, reducing documentation cycle time by **35%** while maintaining audit-trail integrity.
- Supported audit readiness and regulatory inspections by ensuring **documentation accuracy, system traceability, and compliance evidence** across **GxP systems**, collaborating with quality, operations, and regulatory teams to address inspection findings and demonstrate **21 CFR Part 11** and **Annex 11** adherence.

SKILLS

Computer System Validation & Compliance – CSV lifecycle management, GAMP 5, IQ/OQ/PQ protocol design and execution, URS, Risk Assessment, data integrity principles, Annex 11, 21 CFR Part 11, GxP systems.

Quality Management & Regulatory – Change Controls, Deviations, Investigations, CAPA management, audit readiness, regulatory inspection support, compliance documentation, traceability matrices, audit trails.

Manufacturing & Operations Domain – Tablet manufacturing (OSD), secondary packaging (blister packing, bottle packaging), validated system maintenance, periodic compliance reviews, manufacturing platform integrations.

Documentation & Process Management – Validation deliverables, protocol execution reports, QMS record administration, change-management workflows, risk-based documentation, regulatory submission support.

Technical & Enterprise Systems – SQL (PostgreSQL, MySQL, Oracle), REST APIs, system integrations, ERP platforms, data warehousing, Jenkins CI/CD, Git, Jira, Confluence.

Analytics & Data Management – Power BI dashboards, data modelling, Power Query ETL, statistical analysis, operational reporting, business intelligence.

Professional Credentials – IELTS Academic Band 7/9, MSc Data Analytics (NCI, Dublin), Bachelor of Engineering Computer Science, Stamp 1G visa (eligible full-time work in Ireland).

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India

01/2021

PROJECTS

GxP Manufacturing System Validation & Compliance Programme (HCL Technologies)

- Architected and executed **complete CSV lifecycle validation** for a **tablet manufacturing and blister-packing operations platform**, delivering **end-to-end GAMP 5-aligned documentation** including **URS, risk assessments, IQ/OQ/PQ protocols, and validation reports** across **12 interconnected GxP systems**, achieving **zero audit findings** in regulatory inspection.
- Designed and implemented **CAPA, Change Control, Deviation, and Investigation workflows** within the **QMS platform**, establishing **audit-trail integrity and traceability matrices** compliant with **21 CFR Part 11 and Annex 11**, reducing compliance documentation time by **35%** while maintaining **100% regulatory audit readiness**.
- Performed systematic **IQ/OQ/PQ execution and validation reporting** across tablet-manufacturing and secondary-packaging systems, documenting **data integrity checks, system performance baselines, and user acceptance criteria** with **risk-based prioritization**, enabling successful **validated state certification** for manufacturing operations.
- Managed **periodic compliance reviews and ongoing validated-state maintenance** through quarterly risk assessments and configuration audits, identifying and remediating **8 compliance gaps** across manufacturing platforms and ensuring continuous adherence to **GAMP 5, Annex 11, and 21 CFR Part 11** throughout 12-month validation cycle.

Pharmaceutical Manufacturing Operations & Data Integrity Dashboard (HCL Technologies)

- Built operational compliance dashboard in **Power BI** aggregating **CSV validation status, QMS process metrics (Change Controls, CAPAs, Deviations), and regulatory audit-readiness indicators** from **Oracle and PostgreSQL** manufacturing databases, enabling real-time visibility into **GxP system compliance state** for quality and operations teams.
- Designed **data integrity monitoring and audit-trail dashboards** applying **21 CFR Part 11 and Annex 11 principles** to track system access, configuration changes, and validation-status updates, reducing compliance investigation time by **28%** and supporting **zero-gap regulatory inspections** across tablet-manufacturing facilities.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
