PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Built and maintained **WordPress custom themes, ACF fields, and WooCommerce** integrations across 12+ production sites; implemented **page builder customisations** and **REST API integrations** with third-party CRM and booking platforms, reducing manual data entry by **40%** and accelerating client onboarding workflows.
- Developed **Shopify theme customisations** using **Liquid templating** and **app integrations** for e-commerce clients; managed **version control via Git**, enforced code review standards, and deployed updates across **8 live storefronts** with zero downtime incidents.
- Translated **Figma designs into pixel-perfect HTML, CSS, and JavaScript** implementations across headless CMS stacks and component-based frameworks; collaborated directly with designers on handoff accuracy and with clients on technical feasibility, resolving **35+ scope-change requests** through early risk communication.
- Managed ticketed support queue for website updates, performance optimisation, and bug fixes using Jira; responded to **50+ monthly maintenance requests** across WordPress, Shopify, and headless platforms while maintaining **98% SLA compliance** and comprehensive code documentation.
- Contributed technical input to client scoping workshops and feasibility assessments; identified **12+ architectural blockers** early in project lifecycles, communicated risk mitigation strategies to stakeholders, and ensured **core web performance and SEO best practices** were embedded from design through launch.
- Implemented **Tailwind CSS utility-first styling** across responsive web builds; optimised site performance (**Lighthouse scores 90+**), integrated analytics and tracking via REST APIs, and maintained organised, well-documented codebases adhering to agreed development standards across cross-functional three-person project teams.

SKILLS

Web Development Platforms – WordPress (custom themes, ACF, page builders, WooCommerce), Shopify (theme customisation, Liquid templating, app integration), headless CMS, component-based frameworks.

Frontend Technologies – HTML, CSS, JavaScript, React, Angular, Tailwind CSS, responsive design, Figma design handoff and implementation.

Backend & Integration – REST APIs, third-party integrations (CRM, booking, analytics), system interconnections, API-driven data flows.

Development Tools & Version Control – Git, Jira, CI/CD pipelines, ticketed support systems, code review, development standards documentation.

Performance & SEO – Core web performance optimisation, Lighthouse scoring, SEO best practices, page speed, accessibility standards.

Professional Skills – Client communication, project ownership (scoping to launch), multi-project management, scope-change identification, technical documentation, Agile workflows.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Multi-Platform Website Build & Launch Pipeline (HCL Technologies)

- Led end-to-end technical ownership of 8 concurrent website projects across **WordPress, Shopify, and headless CMS architectures**, managing scoping, feasibility assessment, design handoff, and QA through live launch; delivered **100% of projects on schedule** while maintaining **zero critical bugs in production**.
- Architected **custom WordPress themes with ACF field groups and page builder integrations** supporting dynamic content workflows; implemented **WooCommerce customisations** and **REST API connections** to third-party CRM and booking systems, enabling **real-time data synchronisation** and reducing manual reconciliation overhead by **45%**.
- Developed **Shopify theme customisations using Liquid templating** and built **app integrations** for analytics, inventory, and fulfillment platforms; enforced **Git version control** and code review standards, deployed updates across **5 high-traffic storefronts** with **zero downtime**.
- Translated **Figma designs into pixel-perfect responsive HTML, CSS, and JavaScript** implementations; applied **Tailwind CSS utility-first framework** to accelerate styling and achieved **Lighthouse performance scores of 92+** across all deliverables, exceeding client SEO and core web vitals targets.
- Managed **40+ monthly ticketed support requests** for website updates, performance tuning, and bug fixes; responded within **24 hours** across all platforms, maintained comprehensive code documentation, and communicated technical risks and scope changes to clients proactively, achieving **98% customer satisfaction**.

SWIFT Payments Operations Dashboard & Real-Time Monitoring System (HCL Technologies)

- Built enterprise payments-operations dashboard supporting a major banking client's **SWIFT messaging (MT/MX) workflows** and **ISO 20022 cross-border payment flows**; integrated **Splunk and Dynatrace monitoring** for real-time transaction visibility and SLA alerting, reducing **incident detection time by 60%**.
- Implemented **REST API integrations** across payments-processing systems and ERP platforms; designed **SQL data pipelines (PostgreSQL, Oracle)** for **reconciliation workflows** and audit-trail compliance; ensured **GDPR and regulatory data protection** controls throughout system architecture.
- Supported UAT coordination and post-implementation triage with cross-functional banking operations teams and regulatory stakeholders; documented **SEPA instant-payment flows, tokenization concepts, and PSD2 Open Banking requirements** to align technical delivery with compliance mandates.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
